Catalogue of Roses

SEASONS 1938-1939

Weeping Standard Rose.

From

S. BRUNDRETT

The Rose Farm ——— Narre Warren North, Victoria

—Reproduction from "Home Gardener," May 1, 1936.

The above is a photograph of a display of Roses staged by me at one of the Garden Week Exhibitions, held annually at Wirth's Olympia, Melbourne. For a number of years I have had the honour of making a display at this, the greatest trade exhibition of its kind in the Southern Hemisphere. I will be exhibiting again at Garden Week, 1938 (April 5 to April 9).

SEASON 1938

•••••

The Rose Farm,
Narre Warren North,
Victoria.

In presenting this, my 45th Annual Rose Catalogue, to the public, I desire to thank my patrons for their past support, and in soliciting a continuance of their confidence and recommendations, assure them that the greatest and personal attention will be given to all orders entrusted to me.

The unique position I have obtained in the Rose world, of never having been defeated for the Spring Championship by a nurseryman and having won over 300 Medals, Trophies and First Prizes, is ample testimony to my knowledge of Rose Culture for the production of best quality plants.

My stock this season numbers over 100,000, including Weeping Standards, Standards, Three-Quarter Standards, Half Standards, Dwarfs, Climbers, and Polyanthas.

Will clients kindly note that this catalogue is designed for use for two seasons (1938 and 1939). A supplementary catalogue of New Varieties will be sent during April, 1939.

S. BRUNDRETT.

(A. Brundrett, Manager.)

COMPETITION AT SHOWS

Up to the time I discontinued competing at the National Rose and other Shows I was not defeated by any Nurseryman for the Spring Championship.

I stage one of the largest exhibits at the Spring and Autumn Shows, not for competition. I also won over 300 Medals, Trophies and First Prizes.

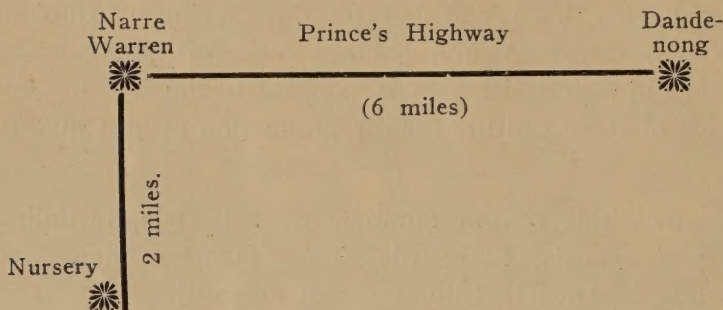

NOTICE OF REMOVAL

I wish to notify my clients that, owing to the poor pressure of water in Moonee Ponds, I have removed my Nursery to Narre Warren North, which is situated eight miles east of Dandenong, where the supply of water is unlimited and the soil is ideal for the production of young plants.

Letters posted in Melbourne and suburbs at night will be received by me at 9 a.m. the following morning, and orders can be despatched by rail or carrier the same day, if desired.

A car will be sent to Narre Warren Station to meet clients if an appointment is made.

Directions for anyone wishing to visit the Nursery by car:

THE "EVERLAST" EMBOSSED ALUMINIUM LABELS

WILL LAST FOR EVER WITHOUT TARNISHING.

For Naming or Numbering Dahlias, Gladioli, Roses,
Trees, Shrubs and other Plants, etc.

Can be attached to Leather Bags, Attache Cases, Portmanteaux, etc.

Any Name or Number can be Embossed and forwarded promptly to any address.

2/- Dozen; 15/- 100 for each 16 or part of 16 letters.

NUMBERS ONLY—From 1 up to 10,000, 1/- dozen; 4/- per 50;
7/6 per 100.

The above Prices include Postage to any part of Australia.

Hints on Rose Culture

○○○○○

Arrival of Package.—When the package containing the trees arrives, it should be taken to a shed to be carefully unpacked. The plants should be taken from the bundle, and the roots placed in water until planted.

Soil.—The best suited for Roses is a deep, heavy loam, with a clay subsoil, but they do very well in a light sand if well dressed with manure during the summer.

Situation and Preparation of Ground.—A place sheltered from high winds, but not near any large trees, should, if possible, be assigned to them. A south or east aspect is best, sheltered from the north and west. If good drainage does not exist, it should be provided. Pipes may be used, or a layer of broken stones or coarse ashes, 6 to 9 inches deep, may be laid in a trench that has been prepared, with a fall to the lowest end of the ground. The drain should be at least 18 inches below the surface, on a hard bottom. The ground should be trenched to a depth of 18 inches before draining.

Planting.—The time for this is end of May to the end of August. Great care should be taken to avoid deep planting; 6 or 8 inches is deep enough. In the case of Dwarf Roses, the union (that is, where the plant is budded) should not be buried below the soil. This is more important in a heavy soil. Each root should be carefully laid out, not allowed to cross each other. Cover the roots with soil, or a little coarse sand. Tread the soil firmly on roots. Water each plant with one gallon of water. Do not allow manure near the roots when planting. Prune all plants back to about four eyes about the end of July.

Manuring.—Roses require a quantity of manure, when established. Cow manure is the best, but horse manure is a good substitute. In September apply a surface dressing of three inches. If weather is dry, the ground should be well saturated with water once every week or ten days.

Insects.—The most troublesome pest is the green fly. A handful of bonedust placed round each plant early in August, and lightly forked in and washed down to the roots with water, is the best preventive. (This should not be used unless the Roses have been planted six weeks or more.)

Mildew.—Flour of Sulphur dusted over affected parts, as soon as it makes its appearance, will keep it in check, but in bad cases it may be necessary to use Lysol—2 tablespoonfuls to 1 gallon of water—and spray under the leaves as well as on top. Lysol must not be used after 4 o'clock in the evening, as it will burn the foliage if it remains wet during the night. If used during the day it will dry quickly, and not burn the foliage.

The 100 $\frac{3}{4}$ Standard Roses arrived safely and opened up in splendid condition. Would you please forward a further 100 on the same conditions.—A. W., N.S.W.

Terms of Business

Remittance may be made by crossed cheque, when 6d. should be added to all country and 1/- to interstate cheques; or by postal notes, post office orders, or Australian postage stamps when account is not more than 5/-.

DESPATCH OF GOODS.

Care should be taken that each order has Name and Address of the sender plainly written upon it. Orders should be written on the form supplied at the back of this Catalogue, not mixed with remarks or instructions of a letter, as this often causes mistakes.

Orders received before the lifting season will be reserved for the convenience of Customers. Orders received during the lifting season are reserved or despatched in rotation.

Small orders can be forwarded by post, if preferred; large parcels will be forwarded by passenger train unless instructed otherwise.

All goods are advised the same day as forwarded and invoiced as soon as possible afterwards.

SUBSTITUTION.

When ordering, state if we may replace varieties sold out with others as good and same colour, or add extra names from which a selection can be made to replace those out of stock. This applies particularly to late orders.

PRICES.

Prices in this Catalogue do not include Postage or Railway freight.

PACKING.

THE GREATEST CARE is taken in packing Roses, and charged at the following rates:—3 to 9, 3d.; 10 to 24, 6d.; 25 to 50, 1/-; 51 to 100, 1/6.

MY ROSES WILL BE READY TO SEND OUT FROM THE MIDDLE OF MAY ONWARDS.

Address all letters—

S. BRUNDRETT,
Rose Specialist,
Narre Warren North, Victoria.

My gardener considers they are a very fine lot.—C.B., Hawthorn.

SUNNY SOUTH FOR HEDGES

This Rose makes a compact and beautiful hedge, 8 ft. high, but, by pruning, can be kept down to 4 or 6 ft. It will supply a large quantity of blooms from October to July. Plant 3 ft. apart. For description, see General List of Dwarf or Bush Roses.

Price: 6 or more, 15/- per doz.; 50 or more, 12/- per doz., plus packing charges (see page 4).

Will you please choose what you believe to be the best 12 Standards among the imported Novelties, and send to me for planting in June. I am leaving the choice in your hands, as I have always been pleased with what you have sent me previously.—Echuca.

Weeping Standard Roses

These Roses are great favourites in England for single specimens on lawns, in shrubberies, or for centres of Rose beds. The plants should not be pruned except to keep them in order, or to take out twiggy or old wood. The runner will reach the ground in one year if the plants receive plenty of water in summer months.

I can offer a good stock of these Weeping Standards in all the most suitable varieties.

There are many Roses of upright habit, such as Black Boy, Miss Marion Manifold and others, that are not suitable for Weeping Standards, but do well as ordinary Standards. The varieties I grow have a natural Weeping habit without training.

For description, see Climbers.

ROSES TRUE TO NAME

Many Hybrid Tea and Tea Roses do not come true to colour in early Spring, or on very hot days; yellow Roses will often come white, and reds turn out pinks, so a Rose should not be condemned on the first flowering.

As I grow all Rose plants sent out by me I am responsible for all being true to name. If a customer has a doubt about any variety not being true, I would esteem it a favour if they communicate with me.

Speaking for ourselves, we sent you our first order some thirty-five years ago from . . . and have been planting other gardens with your Roses ever since, and we can speak in the very best terms of the quality of what we and our friends have received from you and the prompt and careful attention to despatch of all orders.—
A. C., Mildura.

NEW ROSES OF 1938.

Prices for Season 1938.

Dwarfs, 4/- each; 6 or more @ 45/- per dozen.

Three-quarter Standards, where marked Three-quarter Standard, 6/- ea.

Prices for Season 1939.

Dwarfs, 2/6 each; 6 or more @ 27/- per dozen.

Three-quarter Standards, where marked Three-quarter Standard, 4/- ea.

Owing to my Catalogue going to print early I am unable to give my criticism of the varieties in full, as some had not bloomed very much. Those raised by Messrs. McGredy would not be in bloom for several weeks, and, of course, no autumn blooms had been seen of any. The following varieties, however, are worthy of mention:—

SILVER JUBILEE.—The best of the 1938 varieties. Excellent either for exhibition or general purposes. Recommended.

CHAPLIN'S TRIUMPH.—A very promising, full-petalled dark red variety.

FREIA.—"Golden Emblem" yellow, without the splashes. Outstanding.

MADAME EDOUARD ESTAUNIE.—The colour has been indifferent so far, but the shape is of the highest order for exhibition purposes. Colour may improve in autumn.

The following varieties are also promising:—Aribau, Dickson's Perfection, Elite and La Parisienne.

ANNA NEAGLE, H.T. (McGredy).—The colour of this novelty is bright currant red of exceptional brilliancè, the base of the petals sunflower yellow. The blooms are of medium size, full, and carried on long stiff stems covered with dark green mildew-proof foliage. This is a very attractive Rose, the habit of growth being free and branching, which, combined with the beautiful dark green foliage, makes a delightful background for the charming currant red blooms. $\frac{3}{4}$ Standard.

ARIBAU (Dot).—Brilliant red. The long pointed buds open to large double flowers of cupped form, long lasting, and very profusely borne right through the season. The growth is vigorous and upright, with abundant large glossy foliage; fragrant. $\frac{3}{4}$ Standard.

ARMENIE, H.T. (Buatois).—Very vigorous and very free flowering bush. Garnet purple bud, always opening well. A large, double, sweet-scented flower with blood red velvet-like petals, which are shaded with rich crimson. Certificate of Merit, Portland, U.S.A.

Silver Jubilee is outstanding.

BARON JACQUES RISTON, H.T. (Ketten).—Flower bright salmon pink with apricot, very large and full (45-50 petals), of beautiful shape and pleasing fragrance; long bud opens freely in all weathers, carried upright on a mid-long stiff stem. Very vigorous and robust, erect branching. The foliage is dark sage green, and free from diseases; extraordinary free flowering and hardy. A first-class Rose in every respect. $\frac{3}{4}$ Standard.

CHAPLIN'S TRIUMPH, H.T. (Chaplin).—Rich deep crimson with a dark velvety sheen. The buds are perfectly formed, long, shapely and very strongly scented. Free flowering and perpetual. Dark green foliage. Award of Merit, R.H.S. $\frac{3}{4}$ Standard.

DICKSON'S PERFECTION, H.T. (Dickson).—Shrimp pink, heavily overlaid with glowing madder orange, merging into an orange yellow base. The edges of the petals are brightly shaded with rosy salmon. The petals are large and of very heavy texture; large, medium full, blooms which are very sweetly scented. Possibly the most important of its many virtues is its magnificent growth, absolutely reliable, making a wonderfully large, evenly-balanced, upstanding plant in a surprisingly short time. One year hard pruned cutbacks have, without special cultivation, produced up to 16 strong base flowering shoots 22 inches to 28 inches long. $\frac{3}{4}$ Standard.

ELITE, H.T. (Tantau).—A variety which is an advance on President H. Hoover. Glowing rose with orange shading, richer in colour than President H. Hoover. Flowers, which are carried singly, are double, very well formed, and have a magnificent fragrance. A splendid variety for the garden or cutting. Cross Chas. P. Kilham x President H. Hoover. $\frac{3}{4}$ Standard.

ENA GLADSTONE, H.T. (Chaplin).—Carmine pink, shaded Indian red, with a yellow base. Long pointed buds opening to large, perfectly shaped flowers. Strong upright growth and very free flowering. An excellent bedding Rose. Sweetly scented. $\frac{3}{4}$ Standard.

FREIA, P. (Tantau).—A bushy-growing Ville de Paris, which retains its golden colour till the petals fall. The flower is double, fragrant. Blooms very freely. A very healthy variety, suitable for garden and cutting. Ville de Paris x Rev. P. Roberts. $\frac{3}{4}$ Standard.

GIRONA (Dot).—A glorious medley of rose-pink, yellow and red, somewhat recalling Talisman in colour. The buds are pointed and open to intensely fragrant blooms. The habit is very free, giving a constant succession, and the growth is exceptionally vigorous, with plenty of disease-resisting foliage. $\frac{3}{4}$ Standard.

GOLDEN DRUSCHKI, H.P. (Lambert).—Growth very strong, upright; wood thorny. Leaves large, healthy, mildew-proof, dark glossy green. Flower very large, full, perfectly shaped, clear golden yellow. Long buds on strong straight stems. Hardy. A Rose of true Druschki type and an entirely new break in this class. Excellent for exhibition, garden or cutting. $\frac{3}{4}$ Standard.

Silver Jubilee is outstanding.

- KING GEORGE'S MEMORIAL, H.T. (Bohm).—Strong, vigorous growth, dark crimson colour with dark velvety-purple shading. Exhibition quality, very large, full and strongly scented. Gold Medal, France. $\frac{3}{4}$ Standard.
- LA PARISIENNE (Mallerin).—Very free flowering and a strong, vigorous grower; glistening, clear green, healthy foliage. Long buds, carried singly on a long stem. Colour, flaming coral. Very large flower, nearly full double, with large petals symmetrically placed. The colour is golden coral; it lasts a long time in water. Particularly graceful and of a beautiful colour. Lucy Nicholas x Chas. P. Kilham. Gold Medal, Lyon; Certificate of Merit, N.F.H.S. $\frac{3}{4}$ Standard.
- LLEIDA (Dot).—This variety reproduces the beautiful and popular colours of Contesa de Sastago; the exterior is yellow and interior red, but the flower is larger and of better quality, strongly perfumed. The growth is of fine vigour and the foliage large and abundant. Very floriferous. A fine variety for cutting. $\frac{3}{4}$ Standard.
- LOUIS WALTER (Mallerin).—Vigorous, semi-erect growth; exceptionally luxuriant dark green foliage, very resistant to disease. Golden yellow, shaded with orange. Bloom, large and double. The flowers are generally produced singly on long, strong stems.
- MADAME EDOUARD ESTAUNIE, H.T. (Buatois).—A very vigorous bush with erect branches, very floriferous. Elongated bud, carried on a long, stiff stem. The flower, which opens well, is large, double, beautifully shaped and sweetly scented. Nankeen yellow, shaded red in centre, with flesh colouring on tips and reverse of petals. Gold Medal, Barcelona; Certificate of Merit, Portland, U.S.A. $\frac{3}{4}$ Standard.
- MADGE WHIPP, H.T. (Bees).—A big, red, fragrant Rose, a novelty which will make instant appeal. Glowing crimson and fiery scarlet enter into the colour make-up. The blooms are large, with robust petals of velvety texture, and borne on unusually stout stems. Growth is vigorous, and foliage rich olive green; disease resistant. The fragrance is that of the true Rose. Award of Merit, N.R.S.
- MCGREDY'S SUNSET, H.T. (McGredy).—A variety which is aptly named. This is a novelty of exceptional merit, and there is no other Rose in commerce that has such an abundance of highly coloured blooms. The outside of the petals is a clear buttercup yellow, while the inside is chrome yellow at the base, shading off into bright scarlet. The colour is intensified as the blooms expand, and is seen at its best when fully open. They are of medium size, full and shapely, with a pleasing fragrance, and carried on strong, upright stems. Mildew proof. Certificate of Merit, N.R.S. $\frac{3}{4}$ Standard.
- PALACKY, H.T. (Bohm).—Orange-yellow, large, strongly scented bloom and a splendidly shaped bud. The most beautiful of Bohm's Roses. Gold Medal, France. $\frac{3}{4}$ Standard.

Silver Jubilee is outstanding.

REX ANDERSON, H.T. (McGredy).—This variety can be best described as a pale lemon yellow, shaded gold at the base of the petals. The enormous blooms are full and of perfect form, and carried on long, stiff stems. It has a pleasing perfume. The habit of growth is exceptionally free and vigorous, and the abundant grey-green foliage, combined with the dark red wood, sets off the flowers to perfection. This variety is absolutely disease resistant, and will grow where many other Roses will fail. Ideal for garden and exhibition purposes. First-class Trial Ground Certificate and Certificate of Merit, N.R.S. $\frac{3}{4}$ Standard.

ROCHEFORT (Mallerin).—Large and healthy, disease resisting foliage. Very large double flowers, yellow, with coral reflexes, with a pleasing scent. Parents, Made. P. S. du Pont x Chas. P. Kilham. Cup and Gold Medal, Saverne; First-class Certificate, France. $\frac{3}{4}$ Standard.

SAM MCGREDY, H.T. (McGredy).—It is with much pride that we introduce this long-awaited-for variety, named after the great Rosarian and hybridist, the late Sam McGredy, sen. The colour of the young bloom is honey yellow, and as the flowers expand the colour changes to dark cream, while the base of the petals is sunflower yellow. The individual blooms are enormous, and have that high, pointed centre which so delights the exhibitor. The large blooms open perfectly in all weathers. The petals are large, stiff and very attractive in the manner they roll back at the edges, showing the blooms to perfection. Even when fully open it is still handsome, reminding one of Mermaid with its brightly coloured stamens. The blooms carry a slight, but pleasing, perfume. Of a strong branching habit, the blooms, which are produced in quantity, are carried erect on sturdy, upright stems. The dark green leathery leaves are mildew-proof. This variety has been thoroughly tried out both in England and America with very favourable criticism. The first time exhibited it was awarded the coveted Gold Medal of the N.R.S. $\frac{3}{4}$ Standard.

S. & M. PERRIER (Mallerin).—This is a very vigorous grower, with strong and thick wood; large, healthy, dark green foliage. Very long and large spiral shaped and solitary buds on a long pedicel. The flower is very large, satiny pale rose with a golden reflex. Very remarkable type of pale-coloured Rose. Gold Medal, Saverne. $\frac{3}{4}$ Standard.

SILVER JUBILEE, H.T. (Dickson).—Light golden yellow with chrome base and canary edge. The first blooms are really enormous, very full and of great quality, always developing well. The flowers produced in the second crop are smaller, but of richer colouring, being shaded with light rose. The growth is strong, vigorous and hardy, resulting in a very satisfactory bush, producing a profusion of bloom. All keen growers of exhibition blooms will want this grand Rose, particularly as its usefulness is not confined to the show bench. Certificate of Merit, N.R.S.; Gold Medal, S.N.R.S. $\frac{3}{4}$ Standard.

Silver Jubilee is outstanding.

SOUVENIR DE MADAME A. HESS (Chambard).—Very vigorous, forming a splendid bush. Beautiful long, shrimp pink bud, borne singly on stiff stem. Flower very large, cup shaped, shrimp pink with deep coral centre and a yellow shading. Very free flowering and fragrant. Three Gold Medals and Certificate of Merit.

SWEETNESS, H.T. (Dickson).—Apricot on a light buttercup yellow ground, washed and shaded light rosy cerise, with a deep amber base. As it develops the colour becomes maize yellow, washed with pale rose. Bud is very long and pointed; flower large, full and of perfect spiral form, with deep, wide, beautifully reflexed petals. The fragrance, as the name suggests, is truly delightful. Of very strong bushy growth, carrying its blooms erect on long, graceful stems. Handsome, large, bright glossy green foliage. It is impossible to imagine anything more lovely than this exquisite flower. For sheer beauty and quality it is unequalled, and must appeal to all connoisseurs. Gold Medal, N.R.S. $\frac{3}{4}$ Standard.

THE BISHOP, H.T. (Dickson).—Bright crimson red, full, moderately large flower of excellent quality, having sweet, true old Rose fragrance in a marked degree. The growth and habit make it an ideal bedding Rose; vigorous, erect, bushy and very floriferous. $\frac{3}{4}$ Standard.

VISCOUNTESS CHARLEMONT, H.T. (McGredy).—A Rose of undoubted beauty and charm. In the young stage the buds are salmon rose, shading off to a satiny rose pink as the blooms develop. The base of the petals is deep buttercup yellow. The blooms are large, full, of good formation, opening perfectly, and reflecting in a manner which enhances its beauty. An outstanding feature of this novelty is its penetrating and pronounced fragrance. The foliage is dark green, and the stems are long and strong. The habit of growth is free and branching. Gold Medal of the N.R.S. $\frac{3}{4}$ Standard.

They opened up perfectly fresh. . . . The Standard stems they are grafted on are far superior to what I have been receiving of late in N.S.W. I shall have much pleasure in recommending you.—Orange, N.S.W.

The Roses arrived in splendid order; only one Standard broken out of the lot (650 plants). The quality is quite satisfactory, and I am sure if you keep up the standard there will be quite a lot of business transacted between us. . . .—Albury.

New Australian Roses

The proceeds from the sale of these varieties have very generously been donated by the raisers to the funds of the National Rose Society of Victoria.

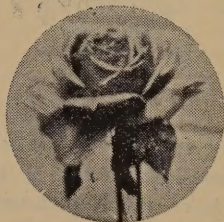

BEATRICE MCGREGOR, H.T. (Alister Clark).—Is a well-formed full, dark red Rose, bred from Sensation, of glorious colour and scent. Constant and healthy. This Rose will surely fill a want, and is issued with every confidence. 3/6.

DORIS OSBORNE, H.T. (Alister Clark).—Most refined, beautiful and constant; very rich carmine pink, with long buds. 2/6.

LYNDA HURST, H.T. (Alister Clark).—A very beautiful rich pink, full and free blooming. The bush is healthy, and the flower suggests a fuller and better coloured Madame Abel Chatenay, from which it descended. 2/6.

MRS. RUSSELL GRIMWADE, H.Gig. (R. Grimwade).—A sport improvement of Lorraine Lee, of an even rich fuchsia pink. Blooms freely throughout the year, but shows its best colour in late autumn or winter. Strong, healthy grower, possessing all the attributes of its popular parent whilst keeping its colour better. 3/6.

SUNLIT, H.T. (Alister Clark).—A delightful bush Rose with beautiful colouring, apricot shaded, aurore predominating. The buds are perfect and the plant well balanced; very free and continuous. 2/6.

Beatrice McGregor is outstanding.

NEW ROSES OF 1937

(The descriptions are those of the raiser, with the results of my observations appended.)

Price: Season 1938, Dwarfs, 2/6 each; 6 or more @ 27/- per dozen.

Season 1939 at General List Price. Some varieties available as $\frac{3}{4}$ Standards. (See List, page 18.)

CLIMBING GOLDEN DAWN, H.T. (Knight).—A very strong climbing sport of this most popular Australian Rose. It is a most valuable addition to the climbing section, the growth being very vigorous and exceptionally well foliaged, and it gives a number of flushes of blooms throughout the year. Colour, rich sunflower yellow.

DECORATOR, H.T. (A. Dickson).—Brilliant carmine, with orange yellow base, inside of petal bright cerise; when fully developed the colour changes to light rose neyron red. A decorative flower with petals of exceptional size. Growth strong and free, producing great masses of showy blooms. A wonderfully effective bedder. *Very large "Cuba" type blooms, 22 petals (twice the number of "Cuba.")*

LICKSON'S CENTENNIAL, H.T. (A. Dickson).—Deep glowing crimson with rich red and black shadings. The varied hues evolved in this lovely red Rose are both novel and beautiful. The bud is long and of elegant pointed form, gradually growing into a very large and handsome bloom of loose form, and built of huge, solid, paeony-like petals. The growth is strong and bushy, and the fragrant flowers are freely produced on long, strong stems. A distinct and delightful novelty of the highest decorative and garden merit. *Thirty-eight petals. A very promising dark red, general purpose variety.*

DORIS FINDLATOR, H.T. (A. Dickson).—Light apricot, deeper toned towards the base. The outside is flushed reddish salmon, with a tinge of carmine. Flower full and shapely. Extremely hardy, free growth. *Thirty-five petals. Colour scheme as "E. N. Perkins," but no improvement so far.*

DOROTHY MCGREDY, H.T. (McGredy).—This bicolour novelty is of a distinct and captivating shade. The outside of the petals is sunflower yellow, shading off into crushed strawberry, whilst the inner side is intense vermillion, with a saffron yellow base. The flowers are of medium size and good shape. They are carried upright on stiff stems, and are freely produced. Sweetly scented; mildew proof. A distinct novelty of great charm, far surpassing the old favourite, The Queen Alexandra, in its beauty, with ideal habit. Certificate of Merit N.R.S. *Similar to "The Queen Alexandra" in the wonderful colouring of the flower, growth moderate.*

Good new Reds: Crimson Glory, Kurt Scholz, Rouge Mallerin.

EFFEKT, H.T. (Krause).—Inside scarlet red, outside flushed golden yellow, making a fine contrast. A tremendous grower, making fine compact bushes of even shape; always in flower. Quite a new type of H.T. on account of its extraordinary growth and habit. 30 to 40 petals. *Colour as for "Charles P. Kilham," with a yellow reflex; a wonderful combination.*

FAIENCE, H.T. (Van Rossem).—Habit as Charles P. Kilham, but stronger, with clear, green, healthy leathery foliage. It is continuous flowering. The flowers have a wonderful mixed colour of peach and apricot. The reverse of the petals is pure yellow, and this contrast of colours gives a great attraction to the well-formed bud and the half-opened flowers. When expanded, the large, full flowers shade off to a most mixed colour of peach and apricot. Gold Medal Saverne. First-class Certificate R.H.S. *Forty petals. A very pretty nice-pointed bud. Promises to be a very good general purpose decorative variety.*

GERALD HARDY, H.T. (A. Dickson).—Bright scarlet red; a brilliant live colour. The pointed bud develops to a moderately large, full flower of beautiful spiral form. Delightfully fragrant. Strong, bushy growth and very floriferous, carrying its captivating flowers on strong, erect stems. This is a real gem, and in our considered opinion the finest fragrant bright red garden Rose ever produced. *Twenty to thirty petals. A beautiful clear red held erect, produced very freely. Colour holds. Sweet scented. A thoroughly good variety.*

JACQUES LATOUCHE, H.T. (Mallerin).—Large flower of orange pink with yellow reverse. In the early summer the colour is vermillion on inside and yellow outside. Vigorous and healthy growth.

JEAN COTE, H.T. (Pernet-Ducher).—Large buds, which open to magnificent, very double flowers which last a long time when cut. Colour, old gold shade, darker at the centre. Strong growth and shiny foliage.

LADY RACHEL VERNEY, H.T. (Bees).—An unusually good buttonhole Rose of refined form and colouring. Colour is a subtle blending of rose, madder and glowing cerise pink, shading at the base to lemon. High centred bud and strongly scented. The stem is very stout and the foliage deep green. Delightful by artificial light.

LEONTINE CONTENOT, H.T. (Ketten).—Flower of superb colouring; sunflower yellow, slightly suffused and bordered with vivid pink, changing to buttercup yellow when fully developed; the outer petals are of a clearer shade, large, full (45-50 petals), of noble formation with highly-pointed centre; bud long and pointed. Growth vigorous, free and erect branching, and free from all diseases. "Joanna Hill" x "Souv. de Claud Pernet." Gold Medal and Cup Saverne. Certificate of Merit Bagatelle. *A good type of yellow, with 30 to 40 petals, buds open very slowly. Recommended.*

Anne, an excellent garden or exhibition variety.

MATADOR, H.T. (Van Rossem).—This Rose can be called a perfected *Etoile de Holland*. The flowers are larger, better formed and much fuller, having 10-15 more petals. The colour is darker and deeper, being scarlet-crimson with a dark silky sheen on the reverse of the petals and a maroon shade on the inside; very highly perfumed with a real old scent. It is a vigorous, healthy grower and extraordinary floriferous. Gold Medal R.H.S. "*Des Tombe Medal*" for highest scented Rose. Gold Medal Saverne. *Good colour, but no improvement on Etoile de Holland so far.*

McGREDY'S CORAL, H.T. (McGredy).—Colouring definitely unique, and best described as coral pink, overlaid salmon, shaded copper; a beautiful combination of colour which is most attractive. The blooms are large, pointed and perfectly formed, and well displayed on long stems. The plant is very vigorous, free and branching. First-class Certificate N.R.S. *A really unique colour. Petals average 22, but some really first-class exhibition blooms have been produced. Good habit.*

McGREDY'S ORANGE, H.T. (McGredy).—An outstanding novelty of superb colouring. The inside and base of petals are deep Indian yellow without shading, outside bright orange, flushed salmon. The medium-sized flowers are full, with high, pointed centre, opening perfectly on the plant and when cut. Tea perfume. The growth is vigorous, free and erect. Disease resistant. Certificate of Merit N.R.S. *Fifteen to 20 petals. "Trigo" type of colour and "Mrs. Sam McGredy" type of growth. A very showy decorative.*

McGREDY'S PINK, H.T. (McGredy).—The colour is a beautiful bright rose. As the flower opens the outer petals shade to a pearly cream and pink, with a saffron yellow base. The blooms are large, of perfect form, and sweetly scented. They are produced on stiff stems, freely and continuously. The habit of growth is vigorous, free and branching. It is a Rose of considerable merit, on account of the model blooms produced in greatest profusion. A fine Rose for exhibition and garden purposes. First-class Certificate and Certificate of Merit N.R.S. *Fifty to sixty petals. A really fine exhibition type as well as general purpose. One of the best of 1937.*

McGREDY'S PRIDE, H.T.—(McGredy).—In the young stage the colour of the blooms is orange and salmon pink, flushed and veined saffron yellow. Outside of petals yellow cadmium, flushed flesh pink. The buds are long and pointed; the large, full flowers are of a wonderful brilliance, and borne freely on long, stout stems. The blooms are remarkably long-lived, both on the plant and when cut. First-class Certificate and Certificate of Merit N.R.S. *Twenty petals. Very dainty and effective when full open.*

MISS ENGLAND, H.T. (Cant).—Flower very full (50 petals) and well shaped, reflexing well. Colour a delicate golden yellow, deepening towards the centre. Habit vigorous, branching, hardy and free flowering. An excellent variety for general garden purposes, and very promising as an exhibition type. *Petals average 50. A very promising exhibition and general purpose delicate golden yellow, of excellent habit. Distinct type. Recommended.*

Lady Huntingfield, a big advance in yellow Roses.

- NINON VALLIN, P. (Pernet-Ducher).—Outside of petals clear yellow, inside apricot. The foliage is shiny and resistant to disease, and the growth is very free flowering and hardy. *An excellent fancy variety. Recommended*
- OLYMPIA, H.T. (Tantau).—Bright red. Nobly shaped bud carried on a strong, long stalk. Large, full flowers, produced very freely. Fragrant. Upright growth, healthy foliage. A good cutting Rose. *The clear red colour keeps well and petals number 30 to 40. A very promising red garden Rose.*
- PRESIDENT BOONE, H.T.—A new dark Rose from America. Blooms exceptionally large, well formed, with huge petals of a very dark crimson maroon colour. The growth is strong and vigorous; it is very free blooming for such a large Rose, and carries its large velvety dark blooms on long stems. Very suitable for exhibition purposes. *Another excellent red, of good form. Recommended.*
- PROFESSOR DEAUX, P. (Pernet-Ducher).—Magnificent flower, golden yellow, striped clear yellow, flowering in abundance on long, straight stems. The bud is very long and pointed. Well perfumed, double, and having good foliage. This variety is very good for cut flowers. *Good foliage and form, but inclined to seal.*
- QUEEN ASTRID, H.T. (Leenders).—Buds Persian yellow; open flowers reddish apricot and bronze. A beautiful combination of colours. Flowers are large, full and fragrant, carried on long, strong stems. Strong growth and free flowering. Gold Medal Barcelona. Gold Medal Brussels. Gold Medal Saverne. Gold Medal Venlo. *Has not shown up the "gold medal" qualities so far.*
- ROSE D'AMOUR, P. (Pernet-Ducher).—Double flowers, oval in shape, of an extremely intense colour, capucine red on the inside of the petals and old gold on the outside. Beautiful bronzy, shiny foliage. *An excellent "fancy" variety. Recommended.*
- SHINING SUN, H.T. (Van Rossem).—A very valuable addition to the yellow bedding Roses. The bud is well formed and pointed. The half-open flowers are clear yolk yellow, with soft peach on the outer petals. When the flower opens it is golden yellow, shading off to dark old gold as the bloom expands. An excellent variety for cutting purposes. Gold Medal Saverne; Certificate of Merit R.H.S. *Further trial has proved this to be an excellent hot weather golden yellow garden variety.*
- SIGNORA PIERO PURICELLI, H.T. (Aicardi).—Brownish orange bud, opening to a mixture of yellow and salmon. Fragrant, double blooms, freely produced on vigorous plants.
- SOUV. DE DENIER VAN DER GON, H.T. (Verschuren-Pechtold).—Orange yellow, shaded coppery red, passing to a golden yellow. Large, fully double flowers of beautiful form and exquisite perfume. The long, pointed bud is carried on a very long, strong stem. Very vigorous growth with bushy erect habit. Very floriferous. Roselandia x Souv. de Claud Pernet. Average 40 petals. Flower, "Golden Ophelia" type. *Promising as a good general purpose variety, but not as exhibition.*

Korovo, a beautiful soft pink; reliable.

STANDARD ROSES

I have been informed on reliable information that Standard Roses are being offered for sale on Sweetbriar Stock. These are easily obtained at a very low cost, but are worthless, and will cause loss and dissatisfaction to those purchasing them.

"Rosa Canina" is the only suitable stock.

LIST OF VARIETIES AVAILABLE AS FULL STANDARDS (36 in.)

Price, 3/9 each; 40/- per dozen, plus packing charges. (See page 4.)

I herewith enclose cheque for £——, which covers cost of 810 Roses received by me last month. They are a really fine lot, and notwithstanding the lengthy journey of over a week they opened up in first-class condition.—Orange, N.S.W.

GENERAL LIST OF DWARF OR BUSH ROSES

Price 1/6 each; six or more at 15/- per dozen, plus packing charges. (See page 4.)

The descriptions are those of the raisers.

Abbreviations: T., Tea Scented; H.T., Hybrid Tea; H.P., Hybrid Perpetual; P. Pernetiana.

AGNES BARCLAY, H.T. (Alister Clark).—A beautiful Rose, of rich colouring, yellow and reddish salmon tints giving a pleasing effect to a fine bush that is large enough to form a low hedge of about three feet in height. This Rose is continuously in flower, and has a well-shaped bud that carries a tea scent. Most beautiful in autumn and winter.

ALEXANDER HILL GRAY, T. (A. Dickson).—Its growth is vigorous and erect. Its lemon-yellow colour intensifies as the blooms develop. Strongly tea perfumed. Gold Medal N.R.S.

AMALIA JUNG, H.T. (Leenders).—Vigorous erect growth, flower large, full and most highly Centifolia perfumed. Colour brilliant crimson red. A magnificent dark red rose. Gold Medal Saverne. Certificate of Merit R.D.S. and H.A.B.

AMBASSADOR, H.T. (Premier Rose Garden).—A salmon pink sport of Talisman, with decided orange base. Plants are identical with the parent, and this Rose promises to be one of the very best of the Talisman sports.

ANGELE PERNET, P. (Pernet-Ducher).—Colour is very distinct. Vivid orange yellow, shaded fiery deep reddish apricot, outside of petals fiery golden yellow. Flowers are carried erect. Long, handsome buds. Large petals of fine substance. Very sweetly scented. Mildew proof. Very vigorous. Gold Medal, Bagatelle Certificate of Merit N.R.S.

ANNIE BRANDT, H.T. (Mallerin).—Very vigorous, upright growth, with abundant, dark green foliage, free from disease. Very long coral red bud, opening to an orange-salmon flower, semi-full and carried on a rigid stalk. It flowers abundantly and continuously.

ANNE, H.T. (Pemberton).—An exceedingly attractive and distinct cherry pink. The well-shaped flowers are full, pointed and carried erect on compact sturdy stems. Very fragrant, damask perfume.

Don't overlook Talisman.

- ANTINEA, P. (Ducher).—A variety of great merit, very vigorous and floriferous, very erect. The flowers are borne singly on long stems. The flower stalk is long and strong, the foliage resistant and brownish-red. The flower is enormous, very double. It is of coppery orange colour, of perfect form and is possessed of an intense and particular perfume.
- ATTRACTION, H.T. (Dickson).—The most vivid colour of its class, intense bright, unfading yellow cadmium, with a shading of orange. The tips of the buds and young flowers are touched with carmine. Form, full, good, medium size, lasting. Petal somewhat short, wide, very thick, always opens well. Erect and strong habit; blooming very free and continuous. Always effective whatever the weather. A showy bedding rose.
- AUSTRALIA FELIX, H.T. (Alister Clark).—The flowers are pink, well shaped and very sweet, and last well when cut. When massed it makes a fine bedding Rose, blooming right into winter. This Rose is quite distinct. Gold Medal N.R.S., Victoria.
- AUTUMN, H.T. (Coddington).—A medium-sized double flower of burnt orange streaked with red. The growth is upright and carries good foliage. Autumn promises to be a very fine fancy colour. Strong fruit perfume.
- BARCELONA, H.T. (Kordes).—Very strong and upright bushy growth, with healthy foliage. Bud long pointed, opening well, carried on erect stem. Blooms very large, full, 40-50 petals, perfect form. Colour a deep carmine crimson, with black velvety shadings. Colour keeps well and resembles that of "Chateau de Clos Vougeot." Strongly perfumed.
- BEDFORD CRIMSON, H.T. (Laxton).—This has won a big reputation as a very sweetly-scented, deep velvety crimson Rose of first class. It is a Rose with plenty of substance, and has, on an average, about 40 petals. The flowers retain their colour to the last. Free flowering; long, stiff stems; good shape; vigorous. Awarded Clay Challenge Cup for sweet scent. Certificate of Merit N.R.S.
- BELLE SIEBRECHT, H.T. (A. Dickson).—Bright rosy pink. Large, full, and beautifully formed. Free flowering and very sweetly scented.
- BETTY UPRICHARD, H.T. (A. Dickson).—The inner face of the petal is delicate salmon pink to carmine, while the outer or reverse petal is glowing carmine, with coppery sheen and a suffusion of orange, a combination of colours that attract and delight. The growth is very vigorous, erect and of free branching habit. The blooms are perfumed and, carried on erect flower stems, are of medium size and perfectly formed.
- BILLY BOILER, H.T. (Alister Clark).—A dazzling red Rose that makes long, upright shoots always crowned with buds. No Rose could be more free in flowering, and the blooms are most effective in water, and last well. It can be used as a bush or pillar Rose, and is absolutely distinct from any other Rose. It has a fine constitution, and will thrive in any position.
- BLACK BOY.—For description, see Climbers.

Rapture, the best of the Ophelia group.

- BOHM'S TRIUMPH, H.T. (Bohm).**—Velvety dark glowing red. Long, pointed, handsome bud. Full, well-built flower carried on long, rigid stems. Vigorous, free and erect growth. Perfectly hardy. Very large, leathery foliage, most disease-resistant. Very fragrant.
- BRIARCLIFF, H.T. (Briarcliff).**—This Rose can best be described as a vastly improved "Columbia." It has a fine, high-pointed centre, and does not produce the bad-shaped flowers common with "Columbia." The colour is a bright, clear shade of rose pink. Very sweetly scented. Not liable to mildew. Vigorous.
- BRITISH QUEEN, H.T. (McGredy).**—The finest white Rose in existence. For exhibition or garden decoration. Petals are large and massive, with an exquisite reflex, which runs right up to the point. Frequently in the bud stage it shows a slight flush. Sweetly fragrant. The Silver Gilt Medal N.R.S.
- BUSYBODY, H.T. (Alister Clark).**—True to its name, this Rose never seems to rest. No Rose could be more free, as every shoot carries a shapely bud of rich orange-yellow. The bush is compact, and the flowers well held. It is at its best in autumn and into deep winter, when its colour is most striking. Free-branching habit, splendid foliage.
- CANARY, H.T. (A. Dickson).**—The bud is light golden yellow, edged lightly with cerise, but when fully opened the flowers are of bright clear canary. A most profuse and continuous bloomer, with rigid stems and glossy, disease-resisting foliage. Growth is very vigorous, free-branching and upright. Of good bedding habit.
- CARINE, H.T. (A. Dickson).**—An absolutely distinct and charming Rose. Growth vigorous, flowering in great profusion. Ideal Rose for all decorative work. Colour orange, carmine, blush, buff, creamy fawn and coppery salmon.
- CATHERINE KORDES, H.T. (Kordes).**—Buds long and pointed, opening to large blooms of ideal shape, much in the way of Ophelia. The colour is a most startling scarlet with dark shades of crimson. Growth and general habit resembles "Caroline Testout."
- CHARLES P. KILHAM, H.T. (Beckwith).**—Brilliant orange orient red, suffused with glowing scarlet. When full open, the colour fades to brilliant Lincoln red. Well-shaped buds, opening to good-sized flowers of very fine shape. Bold petals of fine substance. Free flowering; tea scent; foliage not liable to mildew. Long, stiff stems carrying flowers erect.
- CHATEAU DE CLOS VOUGEOT, H.T. (Pernet-Ducher).**—Velvety scarlet, shaded with fiery red, changing to dark velvety crimson as the flowers expand. Handsome foliage. Good garden Rose.

Don't overlook Clg. President H. Hoover.

- CHRISTOPHER STONE, H.T. (Robinson).—Deepest scarlet, the front of the petal glowing with a beautiful iridescence. Petals large, wide and of great substance. The buds are long and lasting. The flower is semi-double, freely borne and wonderfully brilliant. Very fragrant. Growth vigorous, firm and upright, making a splendid bush. Gold Medal N.R.S. Clay Cup for best scented Rose. First-class Certificate N.R.S. Award of Merit R.H.S.
- CILLY MICHEL, H.T. (Felberg Leclerc).—A new Rose of remarkable and beautiful colouring. Clear capucine brown-red, orange-yellow and coral-red. Large, full, scented flowers. Free flowering.
- CLARICE GOODACRE, H.T. (A. Dickson).—Exquisite form and unique colour; orange perfume. Its pointed blooms are three-quarter zoned biscuit-chrome on ivory white. Useful as exhibition or decorative bloom, having erect flower stalks. Gold Medal Belfast.
- COLONEL SHARMAN CRAWFORD, H.T. (A. Dickson).—Rich velvety crimson, reverse heavily veined and shaded deeper crimson; the centre tones to scarlet red, which intensifies as the flower develops, and holds till the petals fall. Moderately large and full; perfect quality, high, pointed centre; beautiful conical reflexing form. The petal is of solid texture, moderate size, and does not burn. The foliage is disease-resisting. The growth is vigorous, hardy and reliable. The blooming is free and continuous. Strong perfume. Gold Medal N.R.S. Award of Merit R.A.S.
- COLUMBIA, H.T. (Hill).—A delightful shade of rose pink which, unlike other Roses, deepens as the flower ages. It is a strong growing variety, free flowering, and producing splendidly shaped flowers on rigid stems. The foliage is good and free from all disease. The blooms are exceptionally fragrant. Awarded three Gold Medals in America.
- COMTESSE DE CASTILLEJA, P. (Chambard).—The wonderful colouring must be seen to be appreciated. Orange flame, bordered with intense vermilion, passing to golden coral as the flower opens. Handsome, long buds. Sweetly scented; very vigorous; mildew-proof.
- COMTESSE VANDAL, H.T. (Leenders).—The colour of the bud is reddish copper with reddish golden bronze, which lightens as the bud develops; when fully grown the bud is long and pointed and the colour a lightened shade of buff. The inner side of petals is deep coral, producing the most unique contrast in rose colouring. The fully developed flower attains an exceptionally large size and is full with a high centre. Prize of Honour Saverne. Gold Medal Saverne. Gold Medal Barcelona. Gold Medal Bagatelle.
- CONTESSA DE SASTAGO, P. (Dot).—An absolutely sensational novelty with bicoloured flowers. Very erect, robust and vigorous growth, with large glossy green leaves. Golden yellow bud opening into a well-formed bloom. The heavy petals open out easily and show a very new and frank colouring. Adrianople red inside, golden yellow outside. This magnificent Rose should have a big success on account of its quite novel aspect. Fragrant. First Certificate Bagatelle, First-Class Certificate N.R.S.

Grow Lorraine Lee for winter blooms.

CRIMSON CHATENAY, H.T. (Merryweather).—This is a remarkable result of a seedling from "Mad. Abel Chatenay." The name given it expresses the Rose, but the colour is a beautiful bright crimson. Strongly fragrant, of the real old Rose scent.

CRIMSON GLORY, H.T. (Kordes).—Deep vivid crimson, furnished with a soft velvety nap. The large urn-shaped bud develops to a very well-built full Rose of good quality. It is a splendid grower, producing quantities of flowers. The plant is of spreading habit. Very sweet, strong fragrance. This Rose has come with a tremendous reputation. Highest award German Trial Gardens. Silver Medal New York. One of the best general purpose red Roses introduced for many years.

CUBA, P. (Pernet-Ducher).—The long buds are almost scarlet, the open flowers are a very uncommon shade of orange scarlet, or lincoln red on the back of the petals, and the colour on the inside of the petals is a rich, velvety, scarlet crimson. Long buds carried on upright stems. The open flowers are large and full. Very sweetly scented; vigorous, erect habit.

C. V. HAWORTH, H.T. (A. Dickson).—Intense black scarlet, with rich crimson pile. The blooms are of good size, perfectly formed, and very freely produced. Deliciously fragrant. Award of Merit.

DAILY MAIL SCENTED ROSE, H.T. (Archer).—Deep velvety red, shaded scarlet. The full flowers are of good shape, and growth is vigorous and free. This bloom received the "Daily Mail" Cup for its delightful fragrance.

DAINTY BESS, H.T. (Archer).—It is a true single of wonderful charm. The colour is salmon pink, and the stamens make a unique contrast with their gold and crimson. The petals are bold, nicely shaped, with frilled edges. The flowers are carried erect in large trusses. Very sweetly scented. The habit is good. Gold Medal N.R.S. Award of Merit R.H.S.

DAME EDITH HELEN, H.T. (A. Dickson).—The colour is pure, glowing pink, a self-colour throughout; from when the bud opens till the petals fall the shade changes hardly at all. The bloom, which is carried on a rigid, erect stem, is very large and full, of perfect spiral form, and opens well in all weathers. It possesses the true old Rose scent in the very highest degree. The growth is very vigorous, of upright free branching habit. As a garden, bedding or exhibition Rose this magnificent and distinct variety will have few equals. Gold Medal Royal Show (Eng.). Award of Merit R.H.S. London Certificate of Merit N.R.S.

DAVID McKEE, H.T. (A. Dickson).—The colour in the bud stage is crimson red developing to bright crimson carmine. Very large and full; beautiful spiral form. The petal is large, wide and reflexing. The stem is long, strong and erect, and the growth is vigorous and hardy and of free branching habit. Possesses exceptionally sweet and strong fragrance. Good for exhibition and garden purposes.

Mrs. Russell Grimwade, a deeper Lorraine Lee.
(See page 12.)

DELIGHTFUL, H.T. (McGredy).—A Rose with a most appropriate name. A pure bicolour novelty of an entirely new shade, providing a soft and most vivid combination of colours. The outside of the petal is amber yellow, whilst the inner side is sparkling rose, shading to a yellow base; the colours become more brilliant as the flowers age, and the petals retain the vivid hues until they fall. The flowers are large, full, of perfect exhibition form, with beautiful reflexed petals, tea scented. The habit of growth is free and bushy; the stems are long and strong. A very distinct novelty of great charm. Certificate of Merit N.R.S.

DIRECTOR RUBIO, H.T. (Dot).—Very large flowers of a beautiful deep crimson-red shade, carried on stiff stems. Fine foliage. Good habit. A really good, free flowering, decorative Rose.

DIVIDEND, H.T. (Alister Clark).—A lovely rich yellow Rose, quite distinctive, and was selected by the National Rose Society of Victoria on account of its colour and perpetual flowering habit. Every shoot carries a flower which holds its colour well. It is a fine companion to Lady Hillingdon.

DUCHESS OF PORTLAND, H.T. (A. Dickson).—Pale sulphur yellow, with tint of "Eau de Nil." Blooms large, full, of perfect form. Petals large, smooth, circular. For garden decoration and exhibition purposes. Gold Medal N.R.S.

EARL HAIG, H.T. (A. Dickson).—Deep reddish crimson, a solid colour that does not fade; flowers of immense size and substance, perfectly formed, with high centre; petals large, smooth, and massive; growth vigorous, erect, and branching; splendid habit; with rich dark green foliage. An exhibition Rose of the highest order; very sweetly perfumed.

ECSTASY, H.T. (A. Dickson).—Pale cadmium, shaded bronze and cerise, with the colouring more pronounced on the reverse. Full, medium-sized flowers of splendid lasting quality, both on the tree and when cut. Exceptionally fragrant for a Rose of this type. The growth is erect and free-branching.

EDGAR M. BURNETT, H.T. (McGredy).—Large, full flowers, fine shape; large, flesh petals, tinted rose. A great improvement on "La France." The sweetest scented Rose in existence. A grand exhibition flower. Gold Medal N.R.S.

EDITH CLARK, H.T. (Alister Clark).—A really brilliant red Rose, practically fadeless and continuously in flower. All shoots carry a flower that is well held on the compact dwarf bush. The flower, besides being a dazzler, is of beautifully imbricated form, the numerous petals being delightfully arranged. Stands fierce heat and does not burn. Gold Medal N.R.S.V.

EDITH NELLIE PERKINS, H.T. (A. Dickson).—The flowers of this Rose, which are produced in the greatest profusion, are both distinct and captivating. The outside of the petal is a light orient red, heavily shaded cerise at top and orange at base; the inner face is salmon pink, merging into orange-salmon, with golden orange base. The blooms, which are carried on long, upright stems, are moderately full, of pretty spiral formation and sweetly scented.

Director Rubio should not be excluded.

EDITOR McFARLAND, H.T. (Mallerin).—Erect, vigorous growth. Foliage dark green and disease proof. Bud very long, on long and rigid peduncle. Flower very large, beautiful form. Colour bright rose, shaded salmon and capucine red.

E. G. HILL, H.T. (Hill).—The flower is dazzling scarlet, shading to a deeper pure red as it develops. It produces long stems naturally, and the foliage develops freely and is of fine colour.

E. J. LUDDING, H.T. (Van Rossem).—Colour of the buds and half-open flowers coral red. Flowers beautiful satin pink with coral red and salmon shaded; they are full, well formed, and petals of great substance, carried on strong flower stalks. Gold Medal at the great Rose Show at Hague and highest award of the R.H.S. Netherlands.

ELIZABETH ARDEN, H.T. (Prince).—Pure white flowers of refined shape, and made up of fifty good petals, which can often build up an exhibition flower of the highest order. Vigorous growth and free blooming. Sweetly scented.

ELIZABETH OF YORK, H.T. (Dobbie).—Rich cerise-pink of a particularly vivid shade, fading to a pale pink in the open flower. As a garden Rose it is one of the most outstanding introductions for some years. The growth is vigorous and branching, with healthy foliage. Highly recommended.

ELLA GUTHRIE, H.T. (Alister Clark).—This fine pink Rose carries itself well on long stems, and is continuously in flower. Sweet and sure to please. Well tried and proved.

ELLI KNAB, H.T. (Kordes).—Outside petals deep rosy pink, with inner face of pale pink, heavily veined. The flowers are double and of excellent shape, well up to exhibition standard.

EMMA WRIGHT, H.T. (McGredy).—Colour pure orange without shading; an attractive bedding variety of good habit and free flowering character.

ETHEL SOMERSET, H.T. (A. Dickson).—Shrimp pink, edge of petals deep flesh coral pink; flowers large, full, perfectly finished, with high pointed centre and very deep shell-shaped petals of great substance; growth vigorous and branching; splendid habit; very fragrant. A fine Rose for exhibition and bedding.

ETOILE DE HOLLAND, H.T. (Verschuren).—Bright dark red, erect growth and floriferous; very sweetly perfumed. A fine show bloom and a good garden Rose

E. V. LUCAS, H.T. (McGredy).—Dark velvety crimson blooms which do not fade. In the bud stage it is a perfect button-hole Rose and the large, semi-double blooms (averaging fourteen petals) are borne in sprays and produced in great profusion throughout the entire season. The flowers have a faint "tea" perfume. The habit of growth is free and branching, breaking freely and vigorously from the base and every eye. A special feature of this Rose is the freedom of growth and abundance of flowers produced on long stems with dark green leaves and few thorns. Certificate of Merit N.R.S.

Golden Dawn is more satisfactory than Golden Emblem.

- FAIRLIE REDE, H.T. (Alister Clark).—A very lovely Rose of large size, full and free, carried on a strong, tall bush, continuous, and first class. Salmon pink on white ground.
- FEU PERNET DUCHER, H.T. (Mallerin).—Deep yellow, double blooms of unusual size and splendid shape. The outer petals often show a light marking of carmine, which adds to the beauty of an already beautiful variety. The growth is vigorous and branching. Excellent for exhibition purposes.
- FLAMINGO, H.T. (A. Dickson).—Bud bright geranium red; developed flower, glowing rosy cerise. Bud, very long pointed; bloom, medium double, beautiful spiral shape, with very high pointed centre. Fragrance very strong and sweet. Growth vigorous and perfectly hardy. Very resistant from disease. Awards: Clay Cup for best scented new Rose of the year. Gold Medal N.R.S. Award of Merit R.A.S.
- FONTONELLE, H.T. (Hill).—The colour is yellow, deepening towards the centre. A fine big Rose with immense petals. Long buds of good shape. Flowers produced on long, stiff stems. Good habit and foliage. Vigorous.
- FRAU KARL DRUSCHKI, H.P. (Lambert).—Snowy white; extra fine in bud. A strong growing variety, producing flowers of exceedingly handsome appearance on the plant and cut.
- FRAZER ANNESLEY, H.T. (McGredy).—The colour is distinct and unique among Roses, inside of petals being cochineal-carmine with golden yellow at the base, the outside saffron yellow, making a bloom of wonderful beauty and charm. The blooms are long, pointed and full, of medium size, and carried on long, stiff stems. The habit of growth is free and branching. The stems are long, reddish-brown, with few thorns; foliage bronzy-green. A variety we can recommend with confidence, as it is one of the finest bedding Roses we know. The delightful combination of colour is bound to make it very popular.
- FRED. J. HARRISON, H.T. (A. Dickson).—Of vigorous growth and free-branching habit; almost immune from mildew. The blooms, which are freely produced during the entire season, are a cardinal red colour, suffused with crimson and splashed with blackish crimson towards the edge of the petals, which are large, of great substance, and beautifully smooth. Very sweetly scented. A grand Rose for exhibition and garden purposes. Awarded the Gold Medal.
- FRED WALKER, H.T. (McGredy).—A new colour in Roses. The buds are a coral red, and as the blooms expand they develop a lovely shade of glowing pink, with a coppery-orange base. When fully open, the flower is soft old rose, flushed with gold. The blooms are large, full and of good shape, with a faint "tea" perfume. The stems are dark red, with few thorns and dark green foliage; mildew proof. In addition to the brilliant and pleasing tone of colour, the extraordinary freedom and habit of growth are special features of this Rose. First-class Trial Ground Certificate N.R.S.

Contesa de Sastago is recommended.

GAIETY, P. (Hill).—Has no rival in "Fancy Class," and of a beauty beyond description. The expanding bud is brilliant shade of orange vermillion. As the flower develops the petals are ruffled, each row showing a different tone, from soft, old rose pink and orchid to creamy fawn at centre. It is a good grower, with the handsomest foliage in the Rose family.

GEHEIMRAT DUISBERG, H.T. (Kordes).—Seedling from Rapture and Julien Potin. Growth in every respect like that of Ophelia but for the glistening foliage. The colour is a suntrue deep yellow as is found in Julien Potin.

GENERAL GALLIENI, T. (Nobonnand).—Colour deep red, centre shaded yellow; distinct. Very free-flowering.

GENERAL McARTHUR, H.T. (Hill).—Bright scarlet, crimson blooms of nice size and shape, very freely produced and delightfully scented.

GEORGE DICKSON, H.T. (A. Dickson).—Produce huge blooms, quite five inches across, that give an exhibitor invariably a top-row corner bloom. The colour is velvety black scarlet crimson, with brilliant scarlet reflexed tips. Blooms open naturally. Gold Medal N.R.S. Eight Medals at various shows.

GEORGES CHESNEL, P. (Pernet-Ducher).—Flowers golden rose, the base of the petals orange yellow, full and of perfect form. A strong variety, with beautiful bronze green foliage.

GEORGES PAQUEL, H.T. (Leenders).—Saffron yellow. Large, well-formed bloom. Vigorous growth. Gold Medal.

GIPSY LASS, H.T. (A. Dickson).—Colour rich scarlet crimson, with blackish shading. Form full and globular. Petal medium size, does not burn or spot. Foliage hard and disease resisting. Growth vigorous and hardy. Habit free branching, tall. Strongly perfumed.

GOLDEN DAWN, H.T. (Grant).—The buds are rich sunflower yellow, heavily flushed with deep old rose. When open the petals disclose an inner face of sunflower yellow, which tones to lemon yellow as the flower ages. The growth is vigorous, with clean, distinctive foliage and a splendid branching habit, so essential to profuse and continuous blooming. Though recommended primarily as a garden Rose, "Golden Dawn" is capable of producing exhibition blooms of a very high order. The average number of petals is 45, while the blooms are richly tea scented.

GOLDEN EMBLEM, P. (McGredy).—Colour, cadmium yellow, buds reddish gold. Fruit scent; more satisfactory as a standard.

GOLDEN GLEAM, H.T. (Beckwith).—Colour is bright buttercup-yellow, without shading. The outer petals are flushed and streaked scarlet on the same lines as "Golden Emblem." Very dainty and refined buds and flowers. Medium size, average number of petals being 25. Very free-flowering. Faint fruity scent. A very free and upright garden Rose.

Ville de Paris is more satisfactory than Golden Emblem.

- GOLDEN OPHELIA**, H.T. (Cant.)—A seedling from "Ophelia," possessing many of its characteristics. The flower is of fair size, and very compact, opening in perfect symmetrical form, colour golden yellow in the centre, paling slightly at the outer petals. A great acquisition for decorative purposes.
- GOLDENSE MAINZ**, H.T. (Kordes).—Plants of moderate growth, with rather a straggling habit. Blooms are clear golden yellow and very attractive, carrying about 60 petals, some of the centre ones being very narrow.
- GORGEOUS**, H.T. (H. Dickson).—Strong, vigorous, free-branching growth. Flowers large, full, and exquisitely formed, produced freely and continuously on erect stems. Colour deep orange yellow, flushed copper yellow and heavily veined with reddish copper. An exhibition Rose of the first magnitude. Gold Medal N.R.S.
- GRENOBLE**, H.T. (Mallerin).—Vigorous and erect growth. Foliage dark green; disease proof. Bud long, on rigid peduncle. Colour dazzling scarlet; flower large, full, perfect form, of brilliant scarlet colour, sweetly perfumed. Gold Medal Saverne. Certificate of Merit N.R.S.
- GWENDOLINE COLLINS**, H.T. (Alister Clark).—An extra fine carmine Rose with large petals and well-shaped bud; refined, beautiful and constant.
- GWEN NASH**, H.T. (Alister Clark).—Strong ever-blooming bush Rose, very healthy and vigorous. Large flowers of lovely shade of cyclamen pink. Large petals beautifully reflexed.
- GWYNNE CARR**, H.T. (A. Dickson).—The growth is very vigorous and erect, with free-branching habit. The buds are long and pointed, opening into a full, perfectly-formed bloom; the petals are large, smooth and of great substance, opening well in all weathers. Colour, shell pink to pale lilac rose, increasing in centre to a deeper rose. Delightful fragrance. Awarded Certificate of Merit N.R.S.
- HADLEY**, H.T. (Waban Conservatories).—A rich crimson red, with velvety texture, lovely form, and sweetly scented. Growth vigorous and free-flowering.
- HEINRICH WENDLAND**, H.T. (Kordes).—The colour is deep golden yellow on the reverse, and a vivid capucine nasturtium red on the inner face of the petals. The bud is large and pointed and opens to perfect large blooms. The foliage is free from disease. Vigorous, erect growth.
- HELEN FOX**, H.T. (Buatois).—A magnificent shade of golden yellow that lasts well. The buds are of fine shape, and of Indian yellow colour, shaded coppery red. Vigorous, very free-flowering.
- HUGO ROLLER**, T. (Paul).—Rich lemon yellow, petals edged and suffused crimson. Flowers medium size, of good shape and freely produced.

Picture is ideal for cutting.

IMPERIAL POTENTATE, H.T. (Clarke).—Bud and flower large, with high centre; lasts well; long stems; very fragrant; colour dark rose pink; very free.

IRISH FIREFLAME, Single (A. Dickson).—Deep maddery orange, splashed with crimson, which as the bud develops becomes fiery orange-crimson, changing to solid, delicate orange; strongly Tea Persian perfumed. Vigorous. Gold Medal N.R.S.

I. ZINGARI, Hybrid Lutea (Pemberton).—A remarkable bit of colour. Orange and scarlet; resembling the well-known colours of the famous I. Zingari Cricket Club. Quite distinct and a new break in colour. Semi-double. Claret corona. Sweetly scented. Flowers produced in corymbs. A fine decorative garden Rose.

JAMES REA, H.T. (McGredy).—Rich carmine lake, but would be popularly described as rose pink. The flowers are of huge size, perfect form and substance. With exceptionally large petals; quite one of the largest and most perfect exhibition Roses yet raised. In addition, the flowers have a glorious perfume. Whilst exhibitors will demand this Rose, it should not be passed over by those requiring a very free garden variety, the growth being free, bushy and carrying the flowers upright. Though the flowers are very large, they are borne freely. Gold Medal N.R.S.

J. C. THORNTON, H.T. (Bees).—Intensely brilliant ruby-scarlet colour. The flower is large, full, with petals of great substance. Handsome mildew-proof foliage.

JOANNA HILL, H.T. (Hill).—A new clear yellow Rose, with deeper heart that is distinct. Fine foliage, free flowering, good habit.

JOHN CRONIN, H.T. (Alister Clark).—This Rose possesses a great constitution and makes a large bush, well furnished with healthy foliage. It blooms continuously, and carries its large, well-shaped flowers upright. The colour is rich rose, and as it is such a fine grower it should thrive in all situations.

J. OTTO THILOW, H.T. (Verschuren).—A rich, glowing rose pink, of exceptional merit, with long, pointed buds of perfect formation. As the flowers expand the petals reflex, forming a beautiful large double-centred flower. It is a strong grower and a continuous, profuse bloomer. A grand Rose in every respect.

JULIA, COUNTESS OF DARTREY, H.T. (Hall).—The colour is pure "Tyrian Rose" with yellow base, and is very distinct. The flowers are very large, full and of ideal shape, and fine for exhibition—in fact, one of the most perfect flowers as regards size and quality we know. The flowers have a very strong and delightful fragrance. Gold Medal N.R.S.

JULIE STRAHL, H.T. (Leenders).—A charming seedling from "Gorgeous." Capucine red on a golden yellow ground, toning to golden yellow. Large full flowers, carried erect on long stems. Free flowering, very sweetly scented. Fine foliage, good habit.

Sir H. Seagrave, a reliable exhibition Rose.

- JULIEN POTIN, P. (Pernet-Ducher).—It is unquestionably the most gorgeous and brilliant yellow Rose yet introduced—a rich golden yellow that grows deeper and more intense as the flowers mature. The buds are long and shapely, and develop into large, full flowers of beautiful form. Delightfully sweet scented, growth upright, very floriferous.
- KAISERIN AUGUSTA VICTORIA, H.T. (Lambert).—A vigorous grower and very free flowering, producing flowers on long stems. Colour is pure white, with tinge of yellow in centre. Flowers are large.
- KIDWAY, H.T. (Pernet Ducher).—This variety is remarkable for the beauty of the flower and foliage. It is most floriferous and continuous blooming and will rank amongst the most beautiful. The flower is full, of perfect form, and carried on rigid stem. The colour is sun yellow, striped and shaded orange. Growth robust, handsome foliage, disease resisting. A superb Rose. Accorded the Most Beautiful Rose of France (Concours Lyon).
- KOROVO, H.T. (Leenders).—Flower large and full. Colour, peach blossom and old rose. The plant is vigorous and continually blooming.
- KURT SCHOLZ, H.T. (Kordes).—Bud long and pointed; bloom large with high-pointed centre; large, wide petals. Colour uniform scarlet-crimson. The plant is of upright growth, producing thick wood. Foliage large, green and healthy.
- LADY ASHTOWN, H.T. (A. Dickson).—Satiny buds, and blooms of deep shining pink, with a yellow glow at base of petals, high centre, double, and quite fragrant. A strong free-flowering variety, very suitable for garden and exhibition purposes.
- LADY BATTERSEA, H.T. (Paul).—Growth vigorous and floriferous; buds long and pointed. Colour, cherry crimson, with orange shade.
- LADY FAIRBAIRN, H.T. (Alister Clark).—No Rose could be more free, robust, healthy, perpetual and charming. The colour is a beautiful lively pink, and the flower is well formed and held on stiff, upright stems. It lasts well when cut, and is quite distinct. The foliage is ample and healthy, the bush is compact, and the habit is ideal for bedding.
- LADY FORTEVIOT, P. (Cant).—Golden yellow, deepening to rich ruddy apricot; large flowers with big petals of fine form; growth is strong, with fine mildew-proof foliage; exceedingly sweet, fruity fragrance.
- LADY HILLINGDON, T. (Shawyer).—Orange yellow, long buds, very pretty and distinct. The best yellow bud Rose grown.
- LADY HUNTINGFIELD, H.T. (Alister Clark).—This fine, healthy Rose carries its large golden flowers on good stems. Healthy foliage and constant flowering are added virtues. This Rose has been well tried at "Glenara," where Lady Huntingfield saw it growing and selected it to bear her name.

Ethel Somerset, a reliable deep pink Rose.

- LADY SOMERS, H.T. (Alister Clark).—A clear flesh pink Rose of good form and habit, every shoot bearing flowers that charm everyone that has seen it; should be planted in groups; a particularly fine cut flower of great refinement.
- LADY SYLVIA, H.T. (Stevens).—This charming novelty is a sport from the well-known "Madame Butterfly." It resembles its parent in all but colour, which is superior, as all the shades are intensified and are more lively. (
- LADY VEREY, H.T.—Colour deep shining pink; blooms full, with a high-pointed centre. Strong, vigorous and disease-resisting. Highly recommended for garden and exhibition purposes.
- LAURENT CARLE, H.T. (Pernet-Ducher).—Brilliant velvety carmine; large, of perfect form, opening freely. Growth vigorous.
- LEADING LADY, H.T. (A. Dickson).—Clear flesh pink, delicately flushed peach blossom rose with a soft satiny glow. Large, full flower of ideal conical form, with beautifully reflexed petals and strong, sweet scent. The bloom is carried erect on a rigid stem. Strong, free, bushy growth and very perpetual. Foliage deep green; hard and strongly resistant to disease. We know nothing more lovely than the soft, fragrant beauty of this fascinating Rose. Every bloom develops to perfection. Clay Gold Vase for best scented novelty of 1934. Gold Medal N.R.S.
- LESLEY DUDLEY, H.T. (McGredy).—A Rose of many pretty shades. Soft pink at edge of petals, deepening to carmine, scarlet orange and salmon rose, with a saffron base. The outside of the petals soft pink, buff and gold. The blooms are large, pointed, full, of perfect shape and very fragrant. Growth is vigorous and bushy, and the flowers are shown to perfection on long stems with large, dark green foliage. Good for bedding and exhibition purposes. Gold Medal N.R.S.
- LORD ROSSMORE, H.T. (McGredy).—Creamy white, shaded and margined rose towards edge of petals. The flowers are of great size, but superb, both in symmetry and refinement. The growth is strong and upright, the foliage mildew resistant, with the added charm of delicate "tea" perfume. Either as an exhibition or garden Rose this variety is an acquisition; as many as six flowers of exhibition size have been produced on one stem. Gold Medal N.R.S.
- LORRAINE LEE (Alister Clark).—Dwarf ever-blooming, descended from *Rosa Gigantea*, which carries all the qualities of its parents, with a colour something like that of "Mdme. E. Herriot," and length of petal that bears comparison with anything seen in any other part of the world. It is quite the best of Mr. Clark's seedlings.
- LOS ANGELES, H.T. (Howard & Smith).—The colour is a luminous salmon-pink shaded with translucent gold; sweetly perfumed, and is a strong grower, having healthy foliage. The flowers are borne on long, strong stems, and are very large and perfectly formed.

Sunny South makes a fine hedge.

- LUIS BRINAS, H.T. (Dot).—Orange-copper. Lovely pointed buds opening slowly to a fully double starry flower with a high centre. When fully open the flower is soft old rose flushed with gold. Moderately fragrant. Vigorous, upright and free-flowering. Gold Medal Bagatelle. First-class Certificate N.R.S. Gold Medal Saverne.
- MAB GRIMWADE, H.T. (Alister Clark).—This beautiful bush Rose carries quantities of rich orange flowers of a shade rather difficult to describe. It is very free and constant in bloom, and is sent out after thorough testing for Australian conditions.
- MADAME A. CHATENAY, H.T. (Pernet-Ducher).—Carmine pink, shaded vermillion and salmon. Perpetual and free flowering.
- MADAME BUTTERFLY, H.T. (Hill).—Flesh tinted with pink, apricot and gold; well formed, very free and pretty.
- MADAME EDOUARD HERRIOT, P. (Pernet-Ducher).—Coral red, shaded with yellow and bright rosy scarlet, passing to prawn red, but coral red shaded with yellow on the base. Flower of medium size, semi-double, green bronzed foliage. Growth vigorous, of spreading branching habit, with many long thorns. This Rose won "The Daily Mail" prize of £1,000.
- MADAME JOSEPH PERRAUD, P. (Ducher).—Nasturtium orange in the bud, changing with age to nasturtium buff, with a delightful shading of shell pink at edges of petals. Long, slender buds with large, full flowers. Sweetly fragrant. Excellent growth and habit. Large, green, disease-resistant foliage. Gold Medal Bagatelle. The most beautiful Rose of France, 1934.
- MADAME JULES BOUCHE, H.T. (Crobier).—Vigorous and free flowering habit. Colour white, centre shaded pink; flowers large, full, and perfectly formed.
- MADAME LOUIS LENS, H.T. (Lens).—Plants are vigorous and branching. Flowers in bud stage are very long and pointed, opening into perfectly shaped, pure white blooms of about 40 petals. A welcome addition to our whites. An excellent exhibition variety.
- MADAME MAURICE GAZIN, H.T. (Schwartz).—Vigorous and free-branching growth. Floriferous. Flower large, full, opening well; long bud; colour clear reddish-crimson, interior of flower dark scarlet.
- MADAME NICOLAS AUSSEL, P. (Pernet-Ducher).—Very strong growth with fine foliage. The flower is carried on erect, stiff stem. Bud is very long, salmon shaded carmine, tinted yellow at base. Sweetly perfumed. First-class Certificate N.R.S. England. First-class Certificate for New Roses Ghent. Gold Medal Lyons.

Dwarf Roses are sometimes called Bush.

- MADAME PIERRE S. DU PONT H.T. (Mallerin).—Growth vigorous and erect, free branching habit; foliage clear green; immune from disease. Superb long bud, carried on fine, erect stem. The petals are of good substance and perfect symmetry. Flower large, full, sweetly scented. Colour intense yellow, shaded ochre; very free and most continuous in bloom. Gold Medal Bagatelle, Paris, 1929. Gold Medal Saverne, 1928.
- MADAME SEGOND WEBER, H.T. (Soupert and Notting).—Rosy salmon. The blooms are enormous, form absolutely perfect, possessing splendid habit of growth.
- MADGE TAYLOR, H.T. (Alister Clark).—A very fine, large, deep cherry pink, carrying large buds, which open into full flowers of good form. The growth is strong, and flowers are produced freely.
- MAISON PERNET-DUCHER, P. (Ducher).—A variety of erect growth, bronze foliage, very resistant to disease. The flowers are borne singly on long stems. The bud is elongated and the flower of perfect form and fully double. The flower stalk is very rigid. Colour is clear orange, more pronounced to the centre, and shaded copper. The flower retains its form for a long time.
- MALAR ROS, H.T. (Kordes).—Very strong, upright growth and free branching habit. Large, pointed egg-shaped bud, carried on rigid stem. Flowers very large, full, 50 petals; perfect form, open well. Colour deep crimson. Scent unusually strong.
- MAMAN COCHET, T. (Cochet).—Flesh-coloured Rose, shaded with carmine and salmon yellow. Large and full; fine long buds. A splendid Rose. Should be included in every collection.
- MARGARET DICKSON HAMILL, H.T. (A. Dickson).—Delicate maize-straw colour; deep shell-like petals, edge flushed with most delicate carmine on back of petals. Vigorous, erect; deliciously fragrant. Exhibition or decoration. Gold Medal N.R.S.
- MARGARET MCGREDY, H.T. (McGredy).—The true colour is "Geranium Lake," but would convey to the average mind an impression of the colour if described as orange scarlet. The colour lasts and does not fade even when the flowers are open. The flowers have a faint fragrance, and are full, of perfect form, with large petals. They are the largest exhibition size. The foliage is mildew proof. Stems are strong and stiff and flowers upright. Gold Medal N.R.S.
- MARGUERITE CHAMBARD, H.T. (Chambard).—The colour is geranium red, shaded with vermillion, and is quite distinct and lasts until the petals drop. Growth vigorous, sweetly scented. Very free-flowering.
- MARJORIE PALMER, H.W. (Alister Clark).—Is an ideal bedding Rose of sturdy, compact growth. Continuously in bloom, its sweetly-scented flowers of rich, rosy-pink charm and delight, and with healthy, glossy foliage ensure its popularity. Very fine for a massed effect, and a well-proved favourite at "Glenara."

Picture will be your favourite.

MARY GUTHRIE, H.T. (Alister Clark).—A most distinct and striking single Rose, of a new colour obtained by the use of a new Chinese species, which has imparted to it a shade of vivid pink that is most pleasing and unique. No Rose bush could flower more freely, and every shoot is crowned with flowers—often well over 50 on a strong growth. Continuously in flower. This compact bush Rose is sure to please.

MARY HART, H.T. (Hart).—A red sport of Talisman, and, like the parent, very variable. At its best the colour is glistening crimson scarlet flushed orange, and fading to deep carmine. Very hardy and quite vigorous.

MAX KRAUSE, H.T. (Krause).—Flowers are of immense size, full (45-50 petals), fine pointed form, bud very long on stiff stem. Colour beautiful deep reddish orange changing to lighter tone as bloom ages. Strong, erect growth and glossy disease-resisting foliage. Award of Merit German Rose Show.

MAY WETTERN, H.T. (A. Dickson).—An improved Made. A. Chatenay. The inner face of the petals evolves from bright salmon pink in the bud to deep flesh pink, then to pure light pink in the aged bloom. The outer side passes from deep rose to rosy pink, and finally to bright rose. The bloom is of moderate fullness, having immense, deep, wide petals of solid texture, their formation making a beautifully-built, exceptionally long, high-pointed, conical flower. The growth is vigorous, forming an evenly-balanced tree. It is of upright habit, carrying its blooms on very long stems. Fragrant. Gold Medal N.R.S.

McGREDY'S GEM, H.T. (McGredy).—Colour groundwork is creamy pink, with a yellow base, deepening to rose pink towards edge of petals. Briefly, a "pinkish Rose" of Madame Butterfly shading, but slightly deeper. The flowers are of medium size, full, of perfect form, and have a slight "tea" fragrance. In this variety we have nothing unusual in colour, but when we come to growth we have something entirely new. The manner in which this variety can grow and flower is astounding. It makes a bush three feet or more in height, laden with flowers on long stems. First-class Certificate N.R.S.

McGREDY'S IVORY, H.T. (McGredy).—There are very few Roses that possess a long, spiral form in the bud stage, and large, well-formed, fully developed flowers of thick petalage and good lasting qualities. Our well-known white variety, "Mrs. Herbert Stevens," when well grown, is one. This is a novelty that excels "Mrs. Herbert Stevens" at its best, without the latter's pendulous habit. The colour is a creamy white of soft and delicate tone that merges into a light yellow base. This Rose is free and perpetual flowering, and good for garden or exhibition. The foliage is a very dark green. The blooms are borne erect on long, stout stems. It has a vigorous constitution. Awarded the Gold Medal of the N.R.S.

McGREDY'S PEACH, H.T. (McGredy).—Creamy yellow, washed salmon; a beautiful and delicate combination. It is one of the most beautiful shaped Roses we know. The large, full flowers open perfectly on the plant, or when cut. When lying fully open they are huge, and very beautiful in their delicacy, having a slight "tea" perfume. The growth is vigorous, free, upright, and the stout stems are clothed with dark green, disease-free foliage. Suitable alike for bedding or perfect exhibition flowers. Gold Medal N.R.S.

McGREDY'S SCARLET, H.T. (McGredy).—We have never seen anything approaching this Rose in colour, which is brilliant rich scarlet, so velvety that one can almost see the pile. The base is orange, and the upper portion of the petals is lightly washed deep crimson. The flowers are large, full, of perfect shape and form, with a delicate "tea" perfume. Every flower is fit for exhibition. The habit is free, vigorous, and upright, with large, mildew-proof foliage. Certificate of Merit N.R.S.

McGREDY'S TRIUMPH, H.T. (McGredy).—Geranium red, flushed orange, gradually deepening to rich orange at base. The flowers are very large, full, and of perfect shape, with a delicate rose scent. In addition to the brilliant and unusual colouring of the flowers, the extraordinary freedom and habit of growth are something far from the everyday Rose. We have at last produced the ideal habit Rose, with wonderful foliage and flowers, so outstanding and different from any other Rose in commerce that we have given it the above name. First-class Certificate N.R.S., Gold Medal N.R.S., Award of Merit Glasgow Horticultural Society.

McGREDY'S WONDER, H.T. (McGredy).—An entirely new colour break in Roses, reminding one of the brilliant orange shades seen in double Begonias. The colour is brilliant coppery orange, with a faint orange red flush towards the edge of petals; the outside of the petals has a deeper tinge of orange red. The flowers, which have a "fruity" perfume, are large, pointed, of good form, and moderately full. The growth is vigorous, upright, and all that could be desired, breaking freely and bearing blooms in great profusion. First-class Certificate N.R.S.

McGREDY'S YELLOW, H.T. (McGredy).—Large, bright buttercup yellow flowers; every bloom, large or small, is of perfect form and sweetly scented. Unlike most yellows, it is a strong grower. The growth is upright and disease-free. First-class Certificate and Gold Medal N.R.S. First-class Certificate of Merit G.H.S. Silver Cup R.H.S.

MEVROUW G. A. VAN ROSSEM, H.T. (Van Rossem).—The flowers are heavily flamed, and shaded dark orange and apricot on a dark golden yellow ground, the reverse of the petals often dark bronze and nearly brown when the blooms are in the first stage. Syn. with "Mrs. G. A. Van Rossem."

MILDRED CANT, H.T. (Cant).—Rich velvety crimson flushed with dark maroon flowers which are moderately large. The buds are well shaped and the growth moderate. Good for exhibition purposes.

- MISS AUSTRALIA, H.T. (Knight).—The Rose of 1933. A delicate shell pink, often shaded salmon at the base of petals. The blooms are exceptionally large and excellent form. It is one of the highest standards yet attained in an exhibition and garden Rose. The growth is strong, and the sweet-scented, perfectly shaped, very large, long-lasting blooms, which average 80 petals, are freely produced, and stand erect on stiff, long stems, with good foliage.
- MISS MARION MANIFOLD.—For description see Climbers.
- MODESTY, H.T. (McGredy).—Petals of enormous size. Blooms unusually long and pointed. Colour pearly cream, faintly flushed rose. Marvellously free blooming and sweetly scented. A faultless exhibition Rose. Gold Medal N.R.S.
- MOLLY BLIGH, H.T. (A. Dickson).—Blooms are large, ideal shape. Deep maddery pink, heavily zoned orange madder at base of petals. Exquisite musk rose perfume. Growth vigorous. Award of Merit R.H.S.
- MRS. ALBERT NASH, H.T. (Alister Clark).—This Rose is, indeed, a real red that holds its colour. Most free, perpetual, and sweet, on upright stems of good length; the form is good and slightly incurved. The bush is well shaped and vigorous.
- MRS. ANTHONY SPALDING, H.T. (McGredy).—Strawberry red, flushed orange, and heavily veined claret; the outside of petals heavily overlaid russety orange. A brilliant and attractive colour. The flowers are large, full and of good shape, the petals reflexing in a manner which makes the flower beautiful. Its fragrance, though not very strong, is sweet. The habit of growth is distinct, being very free, vigorous and spreading; the blooms are borne freely throughout the entire season on long stems. Certificate of Merit N.R.S.
- MRS. A. R. BARRACLOUGH, H.T. (McGredy).—Colour, bright, sparkling pink, shading to yellow at base. The colour does not fade, but seems to become brighter as the flower ages. The flowers are full, of huge size, fine substance and perfect form, petals being of very fine texture. The growth is vigorous, erect and branching. Foliage is mildew resistant. Fragrant. Gold Medal of N.R.S. Great Britain. An ideal Rose for exhibition or garden.
- MRS. A. R. WADDELL, H.T. (Pernet-Ducher).—Very long buds of reddish salmon tint. A wonderfully good grower, producing a large quantity of beautiful buds. One of the best.
- MRS. BRYCE ALLAN, H.T. (A. Dickson).—Pure but strong moss-rose perfume. Colour is solid madder carmine rose. One of the most highly-perfumed Roses. Gold Medal N.R.S.
- MRS. DAVID McKEE, H.T. (A. Dickson).—Flower large, great substance and splendid form. The petals are large, smooth, and circular. Colour a beautiful creamy yellow. Gold Medal N.R.S.

MRS. DUNLOP BEST, H.T. (Hicks).—Reddish apricot, with a coppery yellow base; good shaped buds, opening into fairly large, semi-double, sweetly-scented flowers. The plant is most vigorous, free blooming and mildew resistant.

MRS. ERSKINE PEMBROKE THOM, H.T. (Howard and Smith).—Long buds of good pointed shape, developing into perfectly-formed, high-centred, fully double flowers of clear, deep canary yellow without a trace of shading, borne singly on long stems. Moderately fragrant. The plant is upright branching, with attractive foliage, resistant to disease.

MRS. FOLEY-HOBBS, T. (A. Dickson).—Growth is robust and vigorous. It is a giant among Teas. Colour delicate ivory white, faintly tinged clear pink on the edges of the petals. For exhibition purposes this Rose stands without a rival. Deliciously tea perfumed.

MRS. FRANK GUTHRIE, H. Gig. (Alister Clark).—This Rose is descended from "Rosa Gigantea," and is a dwarf ever-blooming variety, forming a beautiful bush with most attractive foliage that is mildew-proof. Its flowers are of a most beautiful clear pink, and tea scented. As it flowers continuously right into winter, it must become a great favourite for garden decoration and cutting.

MRS. G. A. VAN ROSSEM.—See Mevrouw G. A. Van Rossem.

MRS. GEORGE GEARY, H.T. (Burbage).—Rich, deep pink flowers of 45 petals, and with excellent shape, quite up to exhibition standard. The colour is variable according to the season and sometimes merges towards a bright red, while in the cool weather there is occasionally just a hint of an orange colour flushing through the darker shades. The growth is good.

MRS. GEORGE SHAWYER, H.T. (Shawver).—Brilliant clear Rose. Flowers large, well formed and fairly full; petals are of good substance, the growth tall and stiff.

MRS. HAROLD BROCKLEBANK, H.T. (A. Dickson).—Blossoms are large, full, perfect form, sweetly perfumed. Colour is creamy white, centre buff, base of petals soft golden yellow; outer petals frequently tinted salmon rose. Gold Medal N.R.S.

MRS. HAROLD BROOKES, H.T. (Alister Clark).—A lovely free-flowering, semi-double, deep red Rose, possessing great constitution, colour and scent; with good foliage. Makes a large bush. Well adapted for a hedge.

MRS. HENRY MORSE, H.T. (McGredy).—The flower has a clear sheen of bright rose, deeply impregnated and washed vermilion, with clear vermilion veneerings on petals, which are wonderful for depth, size and substance. A superb exhibition bloom and a gem for garden or cut flower. Sweetly scented.

Contesa de Sastago is recommended.

- MRS. HENRY WINNET, H.T. (Dunlop).—A beautiful double red Rose, not quite as dark as "Hadley." Good grower and free-flowering, holding its colour well. Mildew-proof and fragrant. A promising exhibition and garden variety.
- MRS. HERBERT STEVENS, T. (McGredy).—Vigorous, free-branching growth. Large, full flowers, long and beautifully pointed. White, with distinct fawn and peach shading towards the edge of the petals. Very free, and fine for cutting.
- MRS. H. R. DARLINGTON, H.T. (McGredy).—An exhibition Rose; very free and well formed; colour creamy yellow; sweetly scented, and of free growth. Gold Medal N.R.S.
- MRS. J. D. EISELE, H.T. (Dreers).—A magnificent American variety, combining perfect form, strong, free-flowering habit, and a wonderful rich cherry rose colour overlaid with a scarlet glow. It has a most remarkable rich fruity fragrance. Winner of three Gold Medals.
- MRS. J. T. MCINTOSH, H.T. (J. T. McIntosh).—Colour creamy apricot, centre deeper apricot, base of petals golden yellow. Flowers large, full and well formed. Vigorous and erect habit and very floriferous. A Rose of very high quality. Certificate and Gold Medal N.R.S., Vic.
- MRS. L. B. CODDINGTON, H.T. (Coddington).—Deep rosy salmon blooms with large petals. Growth strong and upright, with good foliage; suitable for exhibition purposes.
- MRS. SAM MCGREDY, H.T. (McGredy).—The colour is quite distinct from a wonderful dual combination of vivid shades. A beautiful scarlet coppery orange is heavily flushed with lincoln red on the outside of the petals, and these colours together give a rich and almost dazzling effect. The flowers are of large size and beautiful form, and possess the proper fullness to make them useful for all purposes. They are freely produced and delicately perfumed. The foliage is mildew-proof, the stems are very long and not thorny, and the blooms erect. Habit vigorous. Certificate of Merit of the N.R.S.
- MRS. S. PATON, H.T. (McGredy).—Brilliant orange-scarlet-carmine, without any variation. The orange-scarlet is very pronounced. The flowers are full, fairly large, and of fine form.
- MRS. THEODORE ROOSEVELT, H.T. (Hill).—Creamy white, with pink centre; large and full. Good.
- MRS. W. C. EGAN, H.T. (Howard and Smith).—Flower of a two-tone pink in colour, reverse of petals is of a particularly pleasing tone of soft light pink, the interior is deep flesh, with golden line at base of petals; flowers very large, of good form. An extremely vigorous and healthy grower.
- MRS. W. E. LENON, H.T. (Hill).—Large, long-pointed buds opening to semi-double flowers, which are reddish carmine and very fragrant. A good grower and continuous bloomer. Highly recommended. Sweetly perfumed.

Sir H. Seagrave, a reliable Exhibition Rose.

NELLIE PARKER, H.T. (H. Dickson).—Flowers large, very full, and most beautiful form. Colour pale creamy white with deeper centre, frequently charmingly flushed with blush at tips of the petals. Gold Medal R.H.S., Ireland; Gold Medal N.R.S.

NIGHT, H.T. (McGredy).—This Rose is so dark that we have found it impossible to reproduce in colour. It is the darkest crimson so far raised, and a general idea of this will be conveyed if we describe it as deepest blackish crimson. The flowers are of medium size, full, and of perfect form, very sweetly scented and unaffected by the worst weather. The flowers are borne upright on strong stems. Habit of growth is very bushy and of moderate height. Extract from the National Rose Society's Annual: "An extraordinary Rose; most certainly the nearest approach to a black Rose we have." Certificate of Merit N.R.S.

NIGRETTE, H.T. (Krause).—Colour velvety black without any shading. The darkest of all Roses in commerce. In bud state almost black. Bud medium size, pointed; bloom full, good size and form, opening well in all weathers; petals deep and wide; foliage bright green, graceful and abundant. Very bushy, free-branching growth, blooming profusely and continuously. Sweetly scented. This Rose has caused a sensation wherever exhibited. It is the result of a cross between two of the darkest Roses, viz., Lord Castlereagh and Chateau de Clos Vougeot. No other Rose possesses such free-flowering qualities as "Nigrette." Every little eye brings a bloom. An ideal Rose for massing and bedding. Certificate of Merit German Rose Society, and patented in U.S.A.

NORMAN LAMBERT, H.T. (McGredy).—Outside of petals are deep buttercup yellow, and the inside deep salmon orange suffused bronze and yellow, fading to yellow at base of petals. Flowers are large, full and of perfect form, petals being of fine texture. Growth is bushy, blooms carried erect on stiff stems. Foliage mildew-proof. Fragrant. Awarded Gold Medal N.R.S.

OLIVER MEE, H.T. (S. Dickson).—The buds are very long and pointed, of exquisite shape, which open to large, full, high-centred flowers of great distinction. The colour, in young state, is deep salmon, with flush of clear fawn, changing to deep salmon pink. Sweetly scented.

OPHELIA, H.T. (Paul).—Salmon flesh, shaded with rose, of perfect shape; the flowers on long, stiff stems. Growth vigorous.

OSWALD SIEPER, H.T. (Krause).—A beautiful white with sulphur yellow centre, possessing ideal form and large petals. Large, full, scented flowers carried on strong, erect stems.

PHOEBE, H.T. (Cant).—Creamy white, slightly deeper in centre, occasionally almost pure white; large, full, and beautifully formed flowers, with nicely reflexed petals; always a good quality flower.

- PHYLLIS GOLD, H.T. (Robinson).—Rich buttercup yellow with no tendency to bleach. Petals are of great substance, broad and deep, building up a massive flower with a high, pointed centre. A truly magnificent bloom. The growth is vigorous, upright and branching; one of the strongest and most disease-resisting yellow Roses yet produced. Gold Medal and First-class Certificate N.R.S. Award of Merit R.H.S.
- PICTURE, H.T. (McGredy).—This is an ideal Rose for garden and cutting purposes. The buds are of medium size, are perfectly formed, and as they open the clear rose pink velvety petals reflex in the most pleasing manner. The growth is sturdy and free, with stiff stems. First-class Certificate N.R.S.
- PORTADOWN BEDDER, H.T. (McGredy).—The petals are orange-yellow on the outside, with a rich cerise flush that deepens towards the edge, and inside there is a suffusion of glowing scarlet cerise on an orange ground. The blooms are of moderate size, good form, and thick texture, and are fragrant. An ideal decorative Rose, mildew-proof foliage, strong stems.
- PORTADOWN FRAGRANCE, H.T. (McGredy).—This Rose is aptly named, as the fragrance is so exceptional. We know no other variety with such a penetrating and pleasing perfume, which reminds one of a living mixture of Verbena and strong old tea scent. So powerful is the fragrance that a bunch of blooms in a bowl will fill a room with their sweet breath for many days. The flowers are very large, full, and of perfect form. The colour is brilliant orange salmon-pink, heavily flushed throughout with orange scarlet, running to an orange base. The habit of growth is vigorous. Suitable alike for garden, bedding and exhibition blooms. First-class Trial Ground Certificate of the N.R.S.; Gold Medal of the N.R.S.; Clay Cup for the best New Scented Rose.
- PORTADOWN GLORY, H.T. (McGredy).—The colour a clear canary yellow, which is both rich in tone and lasting. The flowers are perfectly formed and have a tea perfume. The growth is free, vigorous, and practically thornless, with bright green mildew-proof foliage. Good for bedding and exhibition purposes. First Class Certificate N.R.S.
- PRESIDENT HERBERT HOOVER, H.T. (Coddington).—Bud large, long pointed; flower large, semi-double, open, very lasting, moderately fragrant (spicy), outer petals claret red flushed crimson, inner petals deep salmon flesh. As the flower opens the outer petals develop a purplish tint. Borne singly on long, strong stems. Foliage leathery, disease resistant. Growth vigorous, upright; free bloomer.
- PRESIDENT MARCIA, H.T. (Leenders).—Shapely buds, opening to good flowers, carrying 30 petals. Outside the colour is deep pink, with pale flesh pink inside. Hardy, vigorous and free flowering.
- PRESIDENT VAN OOST, H.T. (Lens).—Bud yellow-orange, opening to golden yellow. Large double flower carried on long, strong stems. Vigorous, very free-flowering; luxurious foliage. Cross between Souv. de Claudius Pernet x Ville de Paris. Gold Medal Saverne.

Sunny South makes a Fine Hedge.

- PRINCE CAMILLE DE ROHAN, H.P. (Verdier).—Crimson maroon, shaded with blood-red; rich and velvety; large, full; one of the best dark crimson in cultivation.
- PRINCESS ROYAL, H.T. (A. Dickson).—Glowing light rose in the bud and young flower, developing into Hydrangea pink when fully open. The huge shell-shaped petals form a very large, handsome bloom which possesses in a marked degree the true old Rose fragrance. The growth is very robust with a bushy, erect habit. Foliage glossy, deep green; disease-resistant.
- QUEENSLAND BEAUTY, H.T. (Alderton & Williams).—A pink sport of Golden Dawn. The plants are identical in growth and foliage to the parent. The colour is deep rose pink in the bud stage, but when open the inner face of the petals shows various shades of flesh pink, which contrast with the deep colour on the outside of the petal. Light tea perfume.
- RADIANCE, H.T. (Cook).—Carmine pink, opening to well-formed globular flowers with lighter tints on reverse of petals. Very fragrant. Growth very strong, with fine foliage.
- RAPTURE, H.T. (Schenck).—It is of very fine colour indeed, and certainly the best of all "Ophelia" sports. It is a big improvement on "Madame Butterfly." It is intensely vivid in colour, bright apricot, coral pink, rose and gold. Has more petals than "Ophelia." Has been awarded two Gold Medals in America.
- RED LETTER DAY, H.T. (A. Dickson).—Semi-double Rose of infinite grace and charm. Its velvety, brilliant, glowing scarlet crimson buds and fully-opened cactus-like flowers never fade, as the reflex of the petals is satiny crimson velvet. Gold Medal N.R.S.
- RED RADIANCE, H.T. (Gude).—Cerise red, a genuine sport from "Radiance," possessing all the fine qualities of that popular variety.
- REV. F. PAGE ROBERTS, H.T. (Cant).—Rich yellow stained in the bud and outside of blooms with buff markings. Large, sweetly perfumed, well-formed blooms. A vigorous yellow Rose of strong, upright growth, with healthy foliage. Gold Medal N.R.S.
- ROSE BERKLEY, H.T. (McGredy).—Deep rosy salmon pink, suffused orange, running to an orange base. Flowers large, full, and well formed, with high-pointed centre of exhibition size and quality. A fine garden, bedding, and exhibition Rose. Certificate of Merit.
- ROSE MARIE, H.T. (Dorner).—Long buds, of perfect shape, opening to full flowers of an even shade of rose-pink. Free-flowering and of good growth, with wonderful fragrance.
- ROSETTE, H.T. (A. Dickson).—Colour glowing rosy-red, lightly shaded orange with a yellow base. Full, fairly large, well-formed flower. The petal is wide but rather short. Vigorous, free blooming, and sweetly scented. A thoroughly good garden or bedding variety of reliable growth, carrying heavy crops of bright flowers late into the autumn.

Dwarf Roses are sometimes called Bush.

- ROSY MORN (Alister Clark).—A beautiful decorative Rose of a unique shade of clear pink on a white ground. It does not burn in the sun. Makes a good pillar or bush; is a good grower.
- ROUGE MALLERIN, H.T. (Mallerin).—Pointed buds of brilliant red, opening to a full flower (40 to 45 petals) of good high-pointed centre. Very fragrant, splendid growth, vigorous and upright, with healthy green foliage. Gold Medal Saverne. First-class Certificate N.R.S.
- ROYAL RED, H.T. (Hill).—A giant red Rose. In the bud and half-open stage the colouring is magnificent. Scarlet red, with almost black shading. The fully expanded flower is of great size, but lighter in colour. Flowers very full. We imagine it will be at its best in a hot summer. Free flowering. Good large buds. Sweetly scented. A grand habit.
- RUBY MANWARING, H.T. (Longley).—Sport of Betty Uprichard, retaining all the constitution of its parent. The blooms are of good form and richly coloured rosy cerise. The colouring goes right through the petal. As a bedding and garden variety it is superb; very fragrant.
- SALLIE LEWIS, H.T.—Apricot, shaded creamy white. Full and free; flower perfect shape and good habit.
- SENSATION, H.T. (Hill).—An entrancing shade of rich velvet crimson red, shaded deeper crimson, quite distinct from any other dark red Rose. The bud is long and pointed, and the double open flower of extreme size and exceedingly beautiful. The flowers are freely produced. Very sweetly scented. Very vigorous. Strong stems. Gold Medal American Rose Society.
- SHEILA BELLAIR, H.T. (Alister Clark).—New colouring of pink, with a flush of salmon or apricot; fascinating shade; continuously in flower on a compact bush. Highly decorative and distinct. Well proved.
- SHOT SILK, H.T. (A. Dickson).—The colourings of this beautiful Rose are very difficult to portray; they may be described as bright cherry-cerise, over-shot with salmon-orange, flushed rose, and a deeply-veined, clear, buttercup-yellow base. The growth is vigorous and free-branching, with beautiful glossy, cedar-green foliage. Immune from mildew. It is very continuous and free-blooming. Strong Otto of Rose perfume. Awarded Gold Medal N.R.S.
- SIR BASIL MCFARLAND, H.T. (McGredy).—A new and beautiful shade unknown to us in any other Rose. Colour is orange salmon pink, with a beautiful orange sheen, heavily flushed and veined yellow. The flowers are full, of moderate size and beautiful shape, with mild tea fragrance. Erect habit. We hold this Rose in very high regard.
- SIR DAVID DAVIS, H.T. (McGredy).—Colour unfading, deep, glowing crimson, of an even shade throughout, running to a light yellow at the base. Flowers are large, moderately full, and of good form. Growth is extra vigorous.

Picture will be your favourite,

- SIR HENRY SEAGRAVE, H.T. (A. Dickson).—Colour primrose yellow with a chrome base; the colour intensifies with age. Form very large, full, beautifully formed flower with high pointed centre. Large, well-shaped bud. Growth vigorous and hardy. Bushy and free branching. Sweetly scented. Valuable for either garden or exhibition purposes. Certificate of Merit N.R.S.
- SOPHIE MACKINNON, H.T. (Alister Clark).—A fine red, full Rose of good form and carriage on a strong, healthy plant, constant and extra good.
- SOUTHPORT, H.T. (McGredy).—A very brilliant scarlet variety of a decided and distinct colour, which is maintained until the petals drop. The flowers, which do not mind the rain, are large, full, of fine shape, and up to exhibition size, having a sweet "tea" perfume. The growth is vigorous, upright and free. First-class Certificate and Gold Medal N.R.S. Rhodes Cup Southport, 1928.
- SOUVENIR DE CLAUDIUS PERNET, P. (Pernet-Ducher).—Sun-flower-yellow colour, deeper in centre, large and full, beautifully formed, carried on stiff stem, immune from all diseases. Awarded the Gold Medal at the Rosearie de Bagatelle (Paris), also Gold Medal of the National Horticultural Society of France.
- SOUVENIR DE GEORGES PERNET, H.T. (Pernet-Ducher).—A vigorous grower, of branching habit, oval bud carried on erect stem, very large globular flower, beautiful orient red colour, the end of petals cochineal carmine, all the flower shaded with yellow. Awarded Gold Medal Bagatelle, June, 1921.
- SOUVENIR DE H. A. VERSCHUREN, H.T. (Verschuren).—Cadmium yellow, passing to orange yellow, very large, fairly full, of exquisite form and finish, borne singly on rigid flower stalks, growth similar to "Sunburst," but much thicker, larger, and stronger. Strongly perfumed.
- SOUVENIR DE MARIA DE ZAYAS, H.T. (Soupert).—Blooms very large and perfectly formed; buds long and pointed. Colour vivid carmine, with deep shading.
- SOUVENIR DE PIERRE GUILLOT, P. (Guillot).—Large, full flowers of fine shape. In the early stages the colour is orange-yellow edged with coral, and as the flower expands the coral predominates. Sweetly scented. Vigorous. Free flowering.
- SOUVENIR DE SERGENT CRETTE, H.T. (Chambard).—Very vigorous, superb long bud, rigid peduncle, flowers very large, colour dark yellow, suffused shade of carmine; always flowering.
- SOUVENIR OF STELLA GRAY, T. (A. Dickson).—Flowers of medium size, very full, perfectly formed and most freely produced. Colour deep orange, with splashes or veination of yellow, apricot, salmon, and crimson. The growth is very free.
- SQUATTER'S DREAM, H. Gig. (Alister Clark).—This ever-blooming Rose possesses leathery dark green leaves that are mildew and disease proof. The colour is between saffron and Indian yellow. The flowers are well held on the plant and are excellent for cutting.

STATELY (Alister Clark).—A Rose well named on account of its habit and form. The flowers are of perfect exhibition form, being very double and having a high, pointed centre. The petals are of splendid texture, and it has all the points which are essential for an exhibition Rose. The colour is a pale flesh pink, the centre of the flower deepening to light salmon. "Stately" has also the virtue of being an excellent garden Rose, carrying its large, perfectly-formed flowers erect on long, stiff stems. The plant has a strong constitution and is a splendid grower. The flowers are produced very freely both in autumn and spring.

SUNBURST, H.T. (Pernet-Ducher).—Vigorous grower, long-pointed bud. Flower large, fairly full and of nice elongated form. Colour cadmium yellow, with yellow-orange centre.

SUNNY SOUTH, H.T. (Alister Clark).—Vigorous growth, handsome foliage, strong constitution and good habit. Colour pink flushed with carmine on a yellow base, a most distinct and charming combination hitherto unknown in any Rose. It has also been well tried at "Glenara," and has proved most suitable to the Australian climate, flowering throughout the season. Gold Medal N.R.S.V.

SUNSTAR, H.T. (A. Dickson).—The many phases of colour depicted in the development of this truly sensational Rose are almost too intricate to describe, including deep orange and yellow, edged, veined, and splashed crimson and vermilion, all colours that attract and delight and vary in tone and intensity as the bloom develops; the growth is vigorous, erect, and branching, flowering in great profusion; buds long and elegant; very highly honey perfumed. Awarded Gold Medal N.R.S.

TALISMAN (Montgomery).—A very fine and attractive novelty that is quite distinct. Scarlet, pink, copper, and gold are all to be found in the glorious shadings. Splendid vigorous habit and growth. Free flowering. Fine flowers and buds (average 25 petals). Large leathery foliage.

TEXAS CENTENNIAL, H.T. (Dixie Rose Co.).—A sport of President Herbert Hoover, with all its wonderful plant qualities. The colour is blood red, toning to cerise red in centre. A most striking new red of unusual shade.

THE RAJAH, H.T. (Alister Clark).—A fine deep red Rose, very free and constant, especially good in midsummer and autumn. The bush is strong and healthy, and thoroughly proved.

TONY SPALDING, H.T. (McGredy).—Brilliant scarlet crimson with a wonderful sheen. At no stage in the development of the bloom does the colour fade. The flowers, which are deliciously fragrant, are of medium size, moderately full, and nicely pointed. The growth is extra good. Whilst the flowers are borne in the greatest profusion, they do not hang their heads, but are held upright on even the weakest growth. First-class Certificate and Certificate of Merit N.R.S.

Sir H. Seagrave, a reliable Exhibition Rose.

TRIGO, H.T. (A. Dickson).—Colour of appealing richness, bright Indian yellow with deep buttercup base; reverse apricot washed cerise. Bud elegant, long pointed; bloom large, spiral, always refined, and of perfect quality. Petal large, wide, deep, reflexing; stout texture. Habit ideal, free-branching, bushy. Growth vigorous. Blooming free and perpetual. Fragrance strong, sweet. A Rose that must come right to the front in garden decorative and even exhibition varieties. Gold Medal N.R.S.; Certificate of Merit N.R.S.

UNA WALLACE, H.T. (McGredy).—Beautiful soft-toned cherry Rose without shading. In depth, formation, and substance it is faultless. Very free blooming. Sweetly perfumed. Gold Medal N.R.S.

VIERLANDEN, H.T. (Kordes).—Very strong, erect and free-branching growth. Bud carried on stout, stiff stem, long-pointed, opens to perfect spiral form; 30 petals. Colour deep glistening salmon-pink. Strong scent.

VIKTORIA ADELHEID, H.T. (Kordes).—Chas. P. Kilham x Mev. G. A. Van Rossem. Strong, upright and bushy. Very free, and blooms are always carried upright on stiff stems. Bud oval, opens slowly to a very large full bloom; 40 petals. Colour deep golden yellow, reverse pure yellow, inverse a capucine red on deep golden yellow. With the opening of the bloom the red will increase, so that at last only a golden centre is left. Scented.

VILLE DE PARIS, H.T. (Pernet-Ducher).—A very vigorous grower, erect branching habit. Oval bud, large, full flower, colour of a yellow sunflower, lightly shaded with orange, deeper in the centre and at the base. This wonderful variety is absolutely hardy, and its beautiful foliage is free from all diseases. The yellow colour does not vary. Awarded the Bagatelle Gold Medal.

WARRAWEE, H.T. (Mrs. X. X. Fitzhardinge).—Extra long-pointed buds of clear rosy-salmon, which, when open, disclose an inner face of silvery-pink. The blooms are held regally on strong, upright stems, while the growth generally is extra vigorous. The blooms have 25 to 50 petals, and are up to exhibition standard. Clove scented. First prize for best seedling Rose and Bronze Medal (the highest award) by the N.R.S. of N.S.W.

W. E. CHAPLIN (Chaplin).—Colour deep crimson, deepening to carmine crimson. Vigorous, erect, free branching, healthy foliage. Very free flowering and perpetual. Every bud produces a perfect flower, large and pointed; sweet scented.

WHITE ENSIGN, H.T. (McGredy).—The colour is pure white, flushed delicate cream at very base of petals. Flowers are medium sized, full, and well shaped, of good petalage and substance, carried perfectly upright on long stems. The foliage is mildew-proof. The growth is strong and upright. Faint tea perfume. Certificate of Merit N.R.S.

Sunny South makes a Fine Hedge.

WHITE MAMAN COCHET, T. (Cook).—The parent of this Rose has won universal favour, and is now considered indispensable even in a limited collection. The importance of this sport is said to equal in white what its parent does in pink.

WILHELM KORDES (Kordes).—Capucine red on golden yellow ground, gradually toning to golden yellow, striped with red when expanding fairly full, of good form, carried on stiff stems. Fruit scent.

WILLIAM MOORE, H.T. (McGredy).—The colour is a beautiful soft, even-toned carmine pink, shading to a deeper pink as the blooms age. The blooms are very large, full, of perfect shape, with high-pointed centre, and very sweetly scented. The growth is vigorous, free and upright, and the stiff stems are clothed with light green foliage, with few thorns; mildew proof. This variety has our strongest recommendation as a perfect exhibition Rose, good in all weathers. It is seen at its best as an established plant when it produces an abundance of blooms of perfect formation and great beauty throughout the entire season. First-class Trial Ground Certificate, Certificate of Merit N.R.S.

WILLIAM ORR, H.T. (McGredy).—Brilliant deep velvety crimson, with a delightful sheen. The outer portion of the petals are of much lighter shade. The flowers are large, full, of perfect form, with beautiful reflexed petals. The fragrance is exceptionally strong. A great advantage over the other dark crimsons is that the blooms are unaffected in colour or quality by weather. The foliage is mildew proof. Stems are long, carrying the blooms upright, the growth, habit and freedom of flowering being outstanding. A magnificent garden bedding and exhibition variety which has our strongest recommendation.

MOSS ROSES

This class of Rose is very attractive by reason of the stems being very heavily covered with thousands of small, soft, moss-like thorns. Price, 1/6 each, 6 or more at 15/- per dozen, plus packing charges. (See page 4).

BARON DE WASSENAER.—Carmine crimson.

CAPTAIN BASROGER.—Crimson; very double.

CRESTED MOSS.—Deep pink, heavily mossed; crested sepals; unique.

DEUIL DE PAUL FONTAINE.—Bright pink. Large and very full.

EUGENE GUINOISSEAU.—Reddish-cerise, changing to reddish-violet; large and full.

GLOIRE DES MOUSSEUSES.—Light crimson, very large and full. Highly recommended.

WHITE BATH.—Pure white.

ZENOBIA.—Pink.

CLIMBING ROSES

Abbreviations: H.P., Hybrid Perpetual. T.S., Tea Scented. N., Noisette. S., Single Flowered. H.T., Hybrid Tea. W., Wichuraiana. H. Gig., Hybrid Rosea Gigantea. P., Pernetiana.

Price 1/6 each; six or more at 15/- per dozen, plus packing charges.
(See page 4.)

AMERICAN PILLAR, W. (Conrad).—Flowers single. Rich pink with a well-defined white eye and yellow stamens. Very showy.

AMY JOHNSON, H.T. (Alister Clark).—It is a very vigorous, healthy grower, with good foliage and sweetly scented flowers of a lovely shade of pink. The large blooms are produced continuously right into winter. It can be grown as a pillar or large bush.

AVIATEUR BLERIOT, W. (Faue).—Saffron yellow, centre golden yellow; full, medium size. Flowering in clusters.

BANKSIAN WHITE (Kerr).—Very sweet, blooming in clusters. A good pillar Rose.

BANKSIAN YELLOW (Damper).—Small, but very beautiful. Very useful for training up verandahs.

BARDOU JOB, H.T. (Nabonnand).—Bright, glowing crimson, shaded with black; semi-double. A distinct and striking Rose.

BLACK BOY, H.T. (Alister Clark).—The darkest climbing Rose yet offered. The bud is well shaped and the flower most attractive. Colour is a deep crimson, shaded with blackish maroon overlaying fiery scarlet. Good foliage, which is mildew-proof.

BLAZE, H.W. (Jackson and Perkins).—A marvellous, new, hardy climbing Rose which inherits the blazing colour of Paul's Scarlet and the ever-blooming habit of Gruss an Teplitz, thus combining the most attractive features of both its parents. It is a very vigorous climbing variety and produces flowers on both old and new growth.

BUSH FIRE, W. (Alister Clark).—The colour is bright crimson, with a narrow yellow zone around the centre of each flower. The trusses are of enormous size.

CHERUB, H.T. (Alister Clark).—A climbing Rose with good foliage and habit that in spring is a mass of beautiful salmon pink flowers, gracefully displayed. It also flowers in autumn, when the colouring is superb, making this variety one of the most distinct of its popular class.

CICELY LASCELLES, H.T. (Alister Clark).—A really beautiful pillar Rose, refined, free and most decorative. Salmon pink.

Clg. Talisman is an acquisition.

CICELY O'RORKE, H.T. (Alister Clark).—A really beautiful pillar Rose, vigorous and constant, very decorative and free. Well tested and sure to please.

CLIMBING BELLE SIEBRECHT, H.T. (Paul).—A climbing form of the well-known "Belle Siebrecht." Bright rosy pink, large, full and beautifully formed. Free-flowering and sweetly scented.

CLIMBING CECILE BRUNNER, Clg. Poly. (Ducher).—A splendid climbing sport from this favourite pink Polyantha.

CLIMBING CHARLES P. KILHAM, H.T. (Morse).—A climbing sport of the well-known dwarf variety of the same name. Colour brilliant orange orient red, suffused with glowing scarlet. Tea scent.

CLIMBING CHATEAU DE CLOS VOUGEOT, H.T. (Morse).—A most valuable climbing form of this very distinct and esteemed variety. Colour is velvety scarlet, shaded with fiery red.

CLIMBING COLUMBIA, H.T. (Totty).—A vigorous climbing sport of this popular variety, with fragrance and lasting qualities of its parent. Colour, rose pink.

CLIMBING DAILY MAIL SCENTED ROSE, H.T.—A strong climbing sport of this strongly scented, dark red, double Rose. Reliable in growth.

CLIMBING DAME EDITH HELEN, H.T. (Howard and Smith).—A vigorous climbing sport of Dame Edith Helen. The colour is as the dwarf variety (deep glowing pink), and the flowers are full and of perfect form.

CLIMBING ETOILE DE HOLLAND.—This, we consider, the greatest acquisition in red climbing Roses. The dwarf is undoubtedly the most popular red Rose in Australia. This new climber will, on account of its very rich dark but bright red blooms, differ from other red climbers, as the flower stems are longer, making it a good cutter. The growth is quick, free and strong. Sweetly scented.

CLIMBING FONTANELLE, H.T. (Johns).—Vigorous climbing sport from the dwarf form. Colour yellow, deepening towards the centre.

CLIMBING FRAU KARL DRUSCHKI, H.P. (Laurenson).—Pure white, like the normal type. It ought to prove the best white climber.

CLIMBING GENERAL McARTHUR, H.T. (H. Dickson).—A climbing sport of this popular variety. Colour, bright scarlet, large, full and scented.

CLIMBING GOLDEN EMBLEM, P. (Armstrong).—A vigorous climbing sport from the dwarf, which will be a most decided acquisition. Colour, cadmium yellow; buds, reddish gold. Fruit scent. Every plant has so far proved to be of climbing habit.

Clg. Souv. Madame Boulet is a good yellow Climber.

- CLIMBING GOLDEN OPHELIA, H.T. (Hage).—A climbing sport of the popular yellow variety.
- CLIMBING HADLEY, H.T. (Teschendorf).—A strong climbing sport from Hadley. Colour, dark red.
- CLIMBING IRISH FIREFLAME, H.T. (A. Dickson).—A climbing sport from the dwarf variety. Colour is deep maddery orange, splashed with crimson. Perfumed.
- CLIMBING LADY HILLINGDON, H.T. (Hicks).—A vigorous climbing sport from the well-known dwarf variety. Long buds of a deep orange yellow colour.
- CLIMBING LAURENT CARLE, H.T. (Rosen).—Brilliant velvety carmine, large and double. A strong climbing variety of this popular Rose.
- CLIMBING LORRAINE LEE.—A reliable climbing form of the popular pink variety, will be very popular on account of its winter blooming habit and handsome, evergreen foliage.
- CLIMBING LOS ANGELES, H.T. (Howard & Smith).—A climbing sport of this popular Rose. Colour is salmon pink shaded with translucent gold; sweetly scented.
- CLIMBING MADAME ABEL CHATENAY, H.T. (Easlea).—A true climbing sport of this popular Rose. Colour is carmine pink, shaded vermilion and salmon.
- CLIMBING MADAME BUTTERFLY, H.T. (Smith).—A strong climbing sport of this variety. Colour, salmon flesh, shaded rose, with apricot and gold base. Blooms beautifully shaped and richly perfumed.
- CLIMBING MADAME EDOUARD HERRIOT, P. (Ketten).—A vigorous climbing sport of this justly esteemed Rose, flowering in great profusion. Colour, coral red.
- CLIMBING MADAME SEGOND WEBER, H.T. (Ardagh).—A strong climbing sport, producing enormous flowers of rosy salmon.
- CLIMBING MAMAN COCHET, T. (Upton).—Strong climbing sport from Maman Cochet. Producing fine long buds of flesh-coloured rose.
- CLIMBING MEVROUW G. A. VAN ROSSEM (Pern.).—Dark orange and apricot on golden yellow; blooms of good size; growth free and good. A splendid variety, strongly recommended.
- CLIMBING MRS. HENRY MORSE, H.T. (Chaplin).—A strong climbing sport from the dwarf variety, producing sweetly scented blooms of bright rose, impregnated vermilion.
- CLIMBING MRS. HERBERT STEVENS, H.T. (Pernet-Ducher).—A very vigorous sport from "Mrs. Herbert Stevens." Large, full, snow-white flowers.

Clg. Etoile de Holland is an acquisition.

CLIMBING OPHELIA, H.T. (A. Dickson).—Strong climbing sport of the popular dwarf variety, producing blooms of salmon flesh shaded with rose, of perfect shape.

CLIMBING PRESIDENT HERBERT HOOVER, H.T. (Cant).—A free flowering, vigorous climbing sport from the popular dwarf form. Colour as in the dwarf form, a mixture of gold, orange and red.

CLIMBING RADIANCE, H.T. (Griffing).—A very reliable climbing sport from the well-known variety, "Radiance." Colour, brilliant carmine, shaded salmon and coppery red.

CLIMBING RED RADIANCE, H.T. (Pacific Rose Co.).—A vigorous climbing sport of "Red Radiance," producing blooms of cerise red.

CLIMBING ROSE MARIE, H.T. (Pacific Rose Co.).—A fine climbing sport of this very popular pink Rose.

CLIMBING SHOT SILK (Knight).—This magnificent climbing sport from the dwarf variety is the best climber that has been introduced for many years. The colour is the same as the dwarf variety, but the flowers are much larger and the foliage is immune from mildew. Every plant so far has the true climbing habit.

CLIMBING SOUV. DE CLAUDIUS PERNET, P. (Western Rose Co.).—This valuable climbing sport will be extremely welcome, as it provides a new break in climbing varieties. The double rich sunflower-yellow blooms are in a class by themselves, and will provide a gay show.

CLIMBING SOUV. DE MADAME BOULLET, H.T. (Howard & Smith).—There is quite a number of yellow climbing Roses, but not one which really comes up to this variety for general all-round excellence. It is a vigorous grower with clean foliage, and produces extremely long buds of rich, deep cadmium yellow, opening into fairly full flowers with a rich tea scent.

CLIMBING SUNBURST, H.T.—A strong, vigorous climbing sport from this most popular yellow Rose. A decided acquisition.

CLIMBING SUNSTAR, H.T.—A climbing sport from "Sunstar." Orange and yellow edged, veined and splashed with vermillion. Very free flowering and sweetly perfumed. A moderate climber, very suitable for pillars.

CLIMBING TALISMAN, H.T. (Dixie).—A climbing sport of the very popular dwarf variety. As in the dwarf form, scarlet, pink, copper and gold are all to be found in the glorious shadings. Highly recommended.

CLIMBING WHITE MAMAN COCHET, T.—A strong climbing sport of that very popular white variety.

CLIMBING WILHELM KORDES, H.T. (Wood & Ingram).—A grand climbing form of this very popular Rose. Colour is capucine red on a golden yellow ground.

Clg. Talisman is an acquisition.

CLOTH OF GOLD, N. (Coquereau).—Pale yellow, with deep centre. Large and very vigorous.

CORONATION, W. (Turner).—Bright crimson, shaded scarlet, splashed with small white streaks. Flowers double and freely produced on large trusses.

COUNTESS OF STRADBROKE, H.T. (Alister Clark).—A vigorous growing, free-blooming climbing rose of exceptional merit, and worthy in every respect of a position besides varieties like Black Boy and Miss Marion Manifold. The flowers are large, full (averaging 40 petals), and of good shape, while in addition they possess a full, rich fragrance of the sweet or damask type. The colour is a rich, dark, velvety crimson of a particularly vivid shade, and this brilliancy is maintained for a long period.

COURIER, H. Gig. (Alister Clark).—A very early and extremely vigorous climbing Rose, carrying quantities of bloom in spring, and its beautiful healthy foliage is practically evergreen. The flower is stately, with a fine bud, and the colour a pleasing shade of pink on a white ground. This variety should not be pruned too much, as it blooms from the old wood.

CRIMSON RAMBLER, W. (Turner).—The flowers are small, bright crimson coloured, and produced freely in large bunches.

DAYDREAM (Alister Clark).—This Rose has good foliage and vigour, with most beautiful flowers, resembling large water lilies of blush-pink shading. It is quite distinct and lasts well when cut, and is of the semi-double class that, in Europe and America, is the most popular of all.

DORIS DOWNES, H.T. (Alister Clark).—Presented to the N.R.S. of Victoria by the raiser, Mr. Alister Clark, this strikingly beautiful flower is of a refreshing pink and deepens on the plant. It is very sweetly scented and of large size; the plant is vigorous and the foliage clean and healthy. It can be grown as a climber or as a large bush, and is especially valuable in spring time as a cut flower. In 1931 season, when so many Roses were spoilt by thrips, this Rose was almost as good as usual.

DOROTHY PERKINS, W. (Perkins).—Colour soft light pink, flowering profusely in large clusters. Very fragrant and lasting.

EMILY RHODES, H.T. (Alister Clark).—A very fine pink pillar Rose of good form and freedom; sweet and lasting; constant and well tested.

EXCELSA, W. (Walsh).—Brilliant scarlet crimson; full. Produced in large trusses. One of the best.

FLYING COLOURS, H. Gig. (Alister Clark).—It is a vigorous climber, producing extra large single flowers, fully 5 inches across, of a bright deep cerise. Flying Colours is one of the first varieties to bloom, and when in full flower is a glorious sight.

Clg. Souv. Madame Boulet is a good Yellow Climber.

GOLDEN RAMBLER (Easlea).—The flowers are large, fully 4 inches in diameter, each 30 to 40 petals, in clusters of 2 to 14 or more. Colour of the shade of "Mrs. Weymss Quin," with crimson splashes. Delicious fragrance. Gold Medal N.R.S. Award of Merit R.H.S. Cory Cup N.R.S.

GOLDEN VISION, H.T. (Alister Clark).—A distinct break in climbing Roses, with wreaths of bright green foliage that should carry it into all gardens, apart from its pretty golden-yellow flowers that are borne in greatest quantity in the flush of spring. It is mildew-proof, a good grower and quite distinct. In winter its healthy foliage makes it a striking object, as it is practically evergreen. It is a seedling from "Marechal Neil," and carries some of the colour and scent of the old Rose, with the merit of being suited to the climate.

HARBINGER, H. Gig. (Alister Clark).—In this Rose we have an early spring-flowering climber of good habit, and just what is required to fill the bleak days of the very early spring. When covered with its very large single flowers of pure refined pink it brightens the garden when the daffodils are still in flower.

HIAWATHA, W. (Walsh).—Single; rich crimson, with white eye. Produced in large clusters.

JANET MORRISON, H.T. (Alister Clark).—This fine pillar Rose, of vigorous growth, has been well proved at "Glenara." It carries its large, red, full flowers, which are sweet, free and perpetual, on long stems. The flowers last unusually well in water, making it most valuable as a cut flower, apart from its striking effect on the plant. A seedling from Black Boy.

JESSIE CLARK, H. Gig. (Alister Clark).—The colour is a much clearer pink than "Sinica Anemone." The blooms are twice the size, and more like a very large Clematis.

JOYCE FAIREY, H.T. (Alister Clark).—A very strong bush or pillar Rose of vivid red that does not fade. The foliage is healthy and ample, and the flowers are scented. A fine companion to Paul's Scarlet, but the flowers are much larger, sweeter and of a softer tone, and continue to appear.

KITTY KININMONTH, H.T. (Alister Clark).—A brilliant climbing Rose, producing huge decorative flowers, which are of a bright carmine-rose colour. This Rose has enormous petals and is perfectly even in colour. The flowers are produced all over the plant on splendid stiff stems, which show them off to great advantage.

LADY GAY, W. (Walsh).—Deep rich rose colour, resembling "Dorothy Perkins."

MARECHAL NEIL, N. (Pradel).—Deep golden yellow. Large, full, and sweetly scented. Vigorous habit. Beautiful climber.

MERMAID, Hyb. of *Rosa Bracteata* (Paul).—Flowers, sulphur yellow, the deep amber stamens standing out prominently and throwing a rich shade of yellow over the whole of the blossom; of great size and single, produced continuously from early summer till late in autumn. Growth, climbing; the foliage is most effective. A very distinct and charming acquisition to the single-flowered Roses; it is well suited for growing on walls, trellises and pillars.

Clg. Etoile de Holland is an acquisition.

MILKMAID (Alister Clark).—A very vigorous climbing Rose, with good foliage and habit. In spring it carries large trusses of creamy yellow flowers, having a strong perfume, and bears quantities of seed pods in winter.

MISS MARION MANIFOLD, H.T. (Adamson).—Rich velvety scarlet, shaded crimson. Flowers large, full and good form. Free and continuous bloomer. Opens well in all weathers. Light Bourbon scented.

MRS. A. C. JAMES (Synonymous Golden Climber) (Brownell).—Very vigorous, hardy climber, buds marked like Golden Emblem; large, fragrant blooms. Golden-yellow on long stems. One of the best yellow climbers.

MRS. HUGH DETTMAN, H.T. (Alister Clark).—A pillar Rose of great refinement and taking colour, being a bright apricot yellow that opens well, and is particularly healthy and attractive.

MRS. NORMAN WATSON, H.T. (Alister Clark).—This beautiful Rose is most decorative and effective. The flowers are extra large; colour, deep cherry pink. It makes a showy pillar, or can be kept as a large bush.

MRS. PHILLIP RUSSELL, H.T. (Alister Clark).—This Rose is a vigorous grower with mildew-proof foliage. The colour is dark red, as dark as any Rose grown, and the colour does not fade.

NANCY HAYWARD, H.G. (Alister Clark).—A very lovely pillar Rose of the most pleasing and unusual tint of rich pink. Admired greatly when seen at the Melbourne Show. One of the most beautiful singles, not only in the spring but also later on.

PAUL'S SCARLET CLIMBER, W. (Paul).—Vivid scarlet, shaded with crimson. Plant makes a brilliant display in the garden. Gold Medal N.R.S.

PRINCESS OF ORANGE, Clg. Poly. (De Ruiter).—This is the climbing form of the so-much-demanded "Gloria Mundi." Different to the other climbing forms of Polyantha Roses, it does not flower on the maiden plants, but flowers like other rambler Roses on the one-year-old wood. This habit ensures a tall growth. Was shown for the first time at the Spring Show in Rotterdam, April, 1932, and was given the highest award—a First-class Certificate—and an extra Prize of Honour.

QUEEN OF HEARTS, H.T. (Alister Clark).—An entirely new, lovely climbing Rose of a beautiful pink shade and continuously in flower, its sweet scent, beautiful pure colour, and lovely foliage making it one of the most valuable climbers yet sent out.

SCORCHER, H.T. (Alister Clark).—A climbing Rose, unique in colour and of decorative type. The flowers, which are freely produced, may perhaps be best described as being of a true crimson-carmine colour. This Rose is of an unusually brilliant flaming colour. It is a magnificent grower, with beautiful rich green foliage which is absolutely mildew-proof.

Clg. Souv. Madame Boulet is a good Yellow Climber.

SOUV. DE CLAUDE DENOYEL, H.T.—Vigorous climbing growth, upright and branching; flowers of enormous size and pointed form with large massive petals. Colour, rich glistening crimson, shaded vermilion, quite to exhibition standard; sweetly scented. Probably the best red climbing Rose yet introduced.

SOUVENIR DE LEONIE VIENNOT, T. (Bernaix).—One of the most beautiful climbing Roses; strong for even a climbing Rose; silvery rose shading to carmine, base of petals canary yellow.

THE NEW DAWN, H.W. (Dreer) (the ever-blooming Dr. W. Van Fleet).—This new Rose is a sport from Dr. W. Van Fleet. It is identical in every way with its parent in size and formation of its long, pointed, flesh pink buds and double flowers, but blooms continuously throughout the summer and autumn months. The first Rose to be protected by a plant patent in U.S.A.

TONNER'S FANCY (Alister Clark).—The buds are full and of a delicate cream shade, turning to pink in the centre. The shapely blooms are produced on long, stout stems, which is a valuable acquisition where flowers for cutting are desired. Its growth is vigorous, and the bright green foliage has proved to be mildew-proof.

TRAVERSER, H.T. (Alister Clark).—A magnificent climbing Rose in stature, bloom and foliage. No Rose is more vigorous, and it shows its descent from "Rosa Gigantea" by its freedom from disease. The yellow and cream flowers are shapely and profuse in spring, when the plant is a sheet of bloom.

WAR PAINT (Alister Clark).—Remarkable for its striking colour, free flowering habit, and strong, healthy growth. This new climbing Rose is sure to be a great success. It is a brilliant, luminous pink, shaded with rouge. The flowers are large, and are produced very freely. They are also delightful for indoor decoration, the colour being very radiant under artificial light. It has a great advantage over many climbers in that it flowers freely in the autumn.

WHITE DOROTHY (Cant).—A pure white sport of the well-known "Dorothy Perkins." Gold Medal N.R.S.

ooo(3)ooo

I have been buying Roses for years with more or less satisfaction, but when in Victoria lately I was informed that you are the most reliable nurserymen for the supply of good plants.—J.P., Wagga, N.S.W.

ooo(2)ooo

Clg. Etoile de Holland is an acquisition.

POLYANTHA OR MINIATURE ROSES

Many of these Roses are useful for forming an edging round Rose beds, planted about eighteen inches apart. They can also be used instead of annuals, such as Phlox Drummondii, and can be had in the same colours. The plants are a mass of flowers from the end of October to the end of June.

For convenience in planting I have made an alteration in describing the growth of this class. "Tall" means suitable for single specimens; "Medium" suitable for edging and bedding, height about 18 in. to 2 ft.; "Very Dwarf" suitable for edging and bedding, height about 12 to 18 in.

Price 1/3 each; six or more at 12/- per dozen; in lots of 50 or more, 10/- per dozen, plus packing charges. (See page 4.)

AENNCHEN MULLER.—Bright rose pink, with sharply-quilled petals, borne in splendid trusses; strong, bushy plants. Medium.

BABY BETTY (Burbage).—The colour in bud stage is yellow with a ruddy tint, opening to a delicate, clear rose with pale centre, which colour it retains until the end. Growth upright, vigorous, and compact, with beautiful dark green foliage; very free flowering and fragrant. Medium.

BABY DOROTHY.—A dwarf, free-flowering Rose of Dorothy Perkins, pink. Blooms from spring until autumn. Very dwarf.

BORDERER (Alister Clark).—It blooms right through the season, and carries the perfume of the Wichuraiana Roses. The flowers are double and are difficult to describe, but shades of pink, copper and amber go together to make a very charming Rose. Very dwarf.

BRITANNIA (Burbage).—A wonderful, free-flowering single Polyantha Rose, producing large branching trusses, many carrying from 30 to 40 flowers. Colour rich crimson, with white centre and yellow stamens; very striking and effective. Growth vigorous and erect; foliage, bright green. Tall.

BYOU (Ruyter).—A deeper coloured Coral Cluster, and the individual flowers are more double than that variety. A decided improvement. Medium.

CAMEO (Ruyter).—Colour a light reddish pink. Orleans type. Medium.

CANARIENVOGEL (Webber).—Golden yellow, flaked with orange, rose and purple; a rich combination of colour. Tall.

CECILE BRUNNER (Ducher).—Rose, yellowish in centre; very sweet. Very free growth. A gem for buttonhole bouquets. Tall.

Superba, the most fully double red Polyantha.

- CHATILLON (Nonin).—Bright pink, semi-double flowers, very freely produced. A good variety. An improved Orleans. Medium.
- CORAL CLUSTER (Murrell).—Rich coral pink; very pretty and distinct; a fine addition to this class. Medium.
- CORONET (W. Paul).—Flowers yellow, shaded with rose. Very free and effective; very distinct. Medium.
- CRIMSON ORLEANS (Laxton).—Bright crimson, sport from "Orleans Rose." Medium.
- CYRANO (F. Dubrieul).—Carmine, with bright, rosy scarlet reflexes and velvety shadings. Very full, well formed; produced in corymbs. Very free flowering. Very dwarf.
- DAINTY (Ruyter).—A sweet, dainty Rose, delicate pink, slightly salmon tinted; flower single, cup shape. Medium.
- DIRECTOR HJELM.—Colour dark wine red; large clusters of large blooms, similar to Maman Turbat. Medium.
- DOLLY VARDEN (Ruyter).—The first fully double clear pink Polyantha Rose, makes a large flowering truss. Medium.
- D. T. POULSEN (Poulsen).—Brilliant velvety crimson scarlet, with small white eye, semi-double flowers which are borne in clusters in profusion. The growth is strong and erect, with dark green foliage. Tall.
- ELLEN POULSEN (Poulsen).—Dark brilliant pink, large, full, sweet scented. Vigorous, bushy habit, most floriferous. Very fine. Tall.
- ELSE POULSEN (Poulsen).—A charming bedding variety. Semi-double flowers. Clear rose pink. Buds slightly darker. Very fine habit. Very free and continuous flowering. Tall.
- ETOILE LUISANTE (Turbat).—Coral and carmine, base golden yellow; orange red bud. Medium size and splendid shape; quite distinct from other Polyanthas. Very pretty little buds borne on long sprays. Medium.
- FIREBALL (Ruyter).—A flaming-reddish orange colour. Medium.
- FIREGLOW (Wezelenberg).—Fiery orange-red and one of the most brilliant colours seen amongst the Orleans type. It is aptly named, but the individual flowers are somewhat smaller than Orleans. Medium.
- FRANC LEDDY (Ruyter).—Extraordinary fine carmine lake colour; very shapely flowers, of fine habit. Medium.
- GEORGE ELGER (Turbat).—Coppery golden yellow, changing to clear yellow when opening. Very free flowering. Fine for massing. Superb. Very dwarf.

Ellen Poulsen is still the most showy Polyantha.

GLOIRE DU MIDI (Ruyter).—Colour as Gloria Mundi. However, this variety does keep its colour outside under adverse weather conditions. Is perhaps even a little brighter than Gloria Mundi and not quite so fully double. Medium.

GLORIA MUNDI (Ruyter).—This is a wonderful sport from "Orleans." The colour is glowing orange; it is fully double, and borne in clusters. Received two Gold Medals and a Silver Cup as an extra prize of honour. Medium.

GOLDEN SALMON, syn. Goldlachs (Ruyter).—An intense fiery golden salmon of wonderful beauty. Flowers medium to large in size, produced in large, full trusses. Syn. with Orange Perfection. Medium.

GOLDEN SALMON SUPERIEUR (Ruyter).—Colour almost like golden salmon, perhaps a little more yellow salmon. Will stand better in sun and rain. Medium.

HOLLANDIA.—Blood-red rosette-like flowers, in loose elegant sprays. Quite unlike any other Miniature. Medium.

IDEAL (P. v. Nes).—Beautiful dark scarlet. Fine for bedding. Medium.

JACQUES CARROY (Turbat).—Floriferous, covered with clusters of 15 to 20 flowers, form of a Paeony. Fine carmine colour, slightly velvety shaded in centre; very effective; stands well in all weathers. Medium.

KAREN POULSEN (Poulsen).—A very vivid, brilliant scarlet variety. The flowers are quite single, carrying five petals. Medium.

KATHERINA ZEIMET (Lambert).—Clear pure white, flowers in large clusters, and fragrant. Medium.

KIRSTEN POULSEN (Poulsen).—Beautiful bright scarlet, with golden anthers. Trusses are carried erect on strong, stiff stems. Fine foliage. Hardy. Free and continuous flowering. Flowers keep well when cut. Tall.

LADY READING (Van Kleef).—Bright red flowers in large clusters, the individual blooms large and full, with a faint perfume. Growth vigorous and bushy, very floriferous. A true red sport of "Ellen Poulsen," especially recommended for planting with that variety. Tall.

LOCARNO (Ruyter).—A deep orange-scarlet sport of "Orleans." A fine bedding variety. Medium.

MADAME FRANCISQUE FAVRE (Dubreuil).—Very continuous in bloom, flowering in large trusses of single flowers. Colour rich velvety crimson. Certificate of Merit. Tall.

MAGNIFIQUE (Ruyter).—Bright, pleasing pink, beautifully fringed double blooms carried in bold trusses. Habit erect and bushy. Excellent for bedding. Medium.

For best effect with Polyanthas, cut off faded blooms every day or two.

- MAMAN TURBAT (Turbat).—Beautiful china rose, shaded clear peach, erect growth. Flowering in large trusses. Medium.
- MARIE BRISSONET.—Clear rosy flesh, tipped carmine, producing corymbs of immense size, 75 to 100 flowers. Very dwarf.
- MARIPOSA (A. J. & C. Allen).—This variety is introduced solely as an improved form of "Orange King," and the orange-red shade is deeper and more lasting than in "Orange King"; the individual blooms open easily, and it is altogether more serviceable than "Orange King." Medium.
- MEVROUW VAN STRAATEN VAN NES (Leenders).—Deep carmine, with waved petals, produced in clusters of eight to ten. Blooms freely. This Rose is called "Permanent Wave" in America, while in Europe the name has been shortened to "Van Nes." Medium.
- MILLIE (Geo. Russ, Victoria).—Light cherry red with yellow base. Trusses are carried erect on strong stiff stems, dark green foliage; hardy; free and continuous flowering. Excellent bedder. Very dwarf.
- MISS EDITH CAVELL (Meiderwyk).—Scarlet crimson sport from "Orleans," possessing all the parent's qualities. Medium.
- MRS. TAFT.—Rosy crimson, superior to Madame N. Levvasseur. Very dwarf.
- ORANGE KING, Syn. with Orange Queen (Cutbush).—Deep orange yellow. A charming and distinct new colour in this class. Flowers very small, produced freely in large trusses. Medium.
- ORLEANS-ROSE (Levvasseur).—Brilliant geranium-red, suffused rose, with white centre, making a charming combination. Medium.
- OUR ALLIES.—White, suffused pale pink; a Queensland variety of great merit. Medium.
- PAUL CRAMPEL (Kersbergen).—Deep orange-scarlet flowers of Orleans type, borne in large trusses. Highly recommended. Medium.
- PERLE D'OR (Dubrieul).—Nankeen yellow, with orange centres; small and full; very beautiful; flowers very numerous. Tall.
- PRIDE OF HURST (Hicks).—A fine double sport from "Coral Cluster." An excellent addition to the Polyantha class, being a lovely shade of soft pink. Medium.
- RUBY (Ruyter).—Colour carmine red. Orleans type. Medium.
- RUFUS (A. J. & C. Allen).—Pure intense crimson, flowers double, produced in bold upright trusses. A pure self colour that does not burn. Growth free and branching. "Orleans" type. Medium.

Ellen Poulsen is still the most Showy Polyantha.

SALMON SPRAY (Grant).—Colour, rich salmon pink, reverse of petals carmine, borne in sprays of 5 to 20 flowers, mildew proof foliage, constant blooming and sweetly scented. Lasts 5 to 6 days in water. An ideal Rose for table decoration and for massing in the garden. Tall.

SEDUCTION (Turbat).—A lovely peach blossom pink Polyantha; large double flowers that last well; reddish green wood, with few thorns; glossy green foliage, not liable to mildew. Flowering in clusters of 50 to 60. Medium.

SPARKLER (Ruyter).—A sparkling brilliant red. Medium.

SUPERBA (Ruyter).—Fine, bright crimson. The most double variety in its shade. Medium.

TIP TOP.—Yellow edges of petals tipped and flushed carmine; a very pretty variety. Medium.

YVONNE RABIER (Gouchault).—White flowers of good size, borne in fine clusters. Habit perfect; fine for massing. Medium.

For best effect with Polyanthas, cut off faded blooms every day or two.

TESTIMONIALS

(Unsolicited.)

I must say the 600 Rose plants you sent me were an excellent lot, and not one was lost or broken—surely a record.—Glen Innes, N.S.W.

The Roses arrived in tip-top condition, well packed, well budded, well rooted.—P.W., West Brunswick.

... He assured me that you were without an equal as a propagator of Roses, and I do not hesitate to ask you to supply me with the following $\frac{3}{4}$ Standard Roses, etc.—E.N., West Brunswick.

The plants received from you last season have more than excelled my expectations, and I am thoroughly satisfied with them.—H.H., Coburg.

The Roses arrived in fine condition, quite in keeping with the traditions of the name of Brundrett.—E.M.G., Melb.

The seedlings you budded for me have done well and are fine plants.—A.C., Bulla, Vic.

The Roses arrived in good condition on the day mentioned by me. Thank you for the trouble which you took over the matter.—R.M., Deniliquin, N.S.W.

I find your Roses so much more satisfactory than most of those I have brought from They seem to be of a better shape and better grown. . . .—M.A.C., Toorak.
